1. Abstract

MARS radiation shall be considered as the naturally available **three phase radiant energy wave** propagated from MARS region which is emanated from three fundamental neutrino particles. The three fundamental neutrino particles of the Universe shall also be called as **GODLY PARTICLES** or **THREE-IN-ONE PARTICLES** placed **symmetrically** and responsible for evolution of various planets, matters, life and continual existence of material Universe under equilibrium status.

Mars region shall be considered as **WEB** of material universe where all planets, matters, life exists. MARS region shall also be called as **TESLA REGION. EINSTEIN REGION** related to electromagnetic wave theory shall be considered located much below the region of **TESLA REGION**.

2. Foreword

The research on this article attempts to focus apparent shape of **model Cosmo Universe** and the three most fundamental **NEUTRINOS** of the Universe emanated from **DARK FLAME**. The dark flame shall be considered as the origin of Universe. It is hypothesized that the three fundamental neutrinos **PHOTON, ELECTRON, PROTON** shall be considered as the **fundamental particles** which make up the **UNIVERSE** and responsible for evolution of all **matters**, planets and continual existence of the **whole Cosmo Universe**.

It is focused that the word **MARS** is closely associated with three fundamental neutrinos which make up the universe. The word **MAR** in singular shall mean **neutrino ray**; and the word **MARS** in plural shall mean **neutrino rays**. “**MARS RADIATION**” shall mean radiation emanated from **STARDUST** composed of three fundamental neutrino particles **PHOTON, ELECTRON, PROTON**. It is focused that **MARS** shall be considered as the **source** which **TRANSFORM** neutrino radiation into highly accelerated electromagnetic radiation. It shall be stipulated that **MARS** region shall be considered as three phase space AC generator of **naturally available free electricity**.

Further it is focused that the whole Cosmo Universe has **definite shape**. The whole Cosmo Universe shall be considered as a closed “**TRIPOD**” like container having “**TRIANGULAR BASE**”. **SUN, EARTH, MOON** shall be considered as integral part forming the base of Universe.

The whole Cosmo Universe shall be considered as having three different **regions** with different mathematical, physical, chemical properties. The “**DARK FLAME**” shall be considered as the **centromere** or **origin of Universe**.

The **MARS region** shall be considered as the **MIDDLE UNIVERSE**. The middle Universe shall be considered as the region having full of **fundamental neutrino oscillation (MARS Radiation)**. Mars region shall be considered as the web of material universe.

Further the MARS radiation shall be considered as responsible for evolution of **electromagnetic radiation (EMR)** which is responsible for **MATERIAL UNIVERSE** where all matters and planets exists due to impact of electromagnetic radiation. The electromagnetic radiation shall be considered as **“SPECIES RADIATION” (SR)** to MARS radiation and all other Cosmic radiation like **alpha, beta, gamma** radiation and other radiations of material Universe shall be considered as **“SUB SPECIES”** radiation to MARS radiation.

It is focused that all other neutrinos stipulated in quantum physics such as **electron, muon, tau, super nova** shall be considered as **SPECIES NEUTRINOS** to fundamental neutrinos PHOTON, ELECTRON, PROTON. The region of MARS radiation shall also be called as **TESLA REGION** and the region of electromagnetic radiation shall be considered as **EINSTEIN REGION** of the Universe.

It is speculated that this research article focused about model Cosmo Universe, the philosophy of MARS radiation shall pave way for solving many current global problems exist in **quantum theory** such as 1. The concept of **AETHER ENERGY**, 2. Unified theory for **fundamental forces** of Universe, 3. Mysteries about global level formation of **crop circles**, 4. Severe climate change problem such as frequent earth quake, unexpected wind, frequent volcanic activity, unexpected forest fire, etc. The reason for climatic change is due to **ASYMMETRY** of base of Modern Universe. It is speculated that in prehistoric time the base of Universe might be symmetric and during course of expanding Universe the base of Universe might be gradually become asymmetry due to moving of **MOON** away from its axis of **SUN AND EARTH**.

It is further focused that all universal matter such as gases, molecules, ocean, life organisms including human shall be considered as to be existing under electromagnetic equilibrium due to impact of electromagnetic radiation evolved from **MARS radiation**.

3. Keywords

Philosophy of **Cosmo**, philosophy of **Universe**, philosophy of **MARS radiation**, philosophy of **electromagnetic radiation**, philosophy of **fundamental neutrinos**, philosophy of **Aether energy**, philosophy of **real and image**, philosophy of **black and**

white, philosophy of natural human and species human, philosophy of word **soul**, philosophy of electromagnetic spectrum, philosophy of **star human**, philosophy of model **Cosmo universe**

4. INTRODUCTION

There are thousands of **theories** existing about philosophy of Cosmo Universe and about existence of various galaxies and solar systems. So far there is no theory which focus that what is the shape of **Cosmo Universe ?**.

Some theories focus that the Universe is like a flat shaped some theory focus that the Universe is like bubble; Some theory focus that the universe has no beginning and no end.

In modern physics and astronomical science the word **MARS** is considered as one of the seven planets in the Universe. Researchers speculate that **MARS** is the only planet believed to have **life** next to earth planet because of existence of water in it. Further it is understood that **MARS** is the 4th planet from the Sun and its size about one third of size of earth planet. Further the word **MARS** is associated with Roman God of War and agriculture and also associated with astrology.

There is no current theory that **what was the first planet evolved in the Universe?**

It is hypothesized by the author that **MARS PLANET** shall be considered as the first planet evolved in the Universe. Further **MARS** planet shall be considered as the **MOTHER** (AMMU) of all the planets. It is hypothesized by the author that in the early Universe **SUN, EARTH, MOON** shall be considered as three species planet evolved from **MARS** planet. In the early Universe **MARS, SUN, EARTH, MOON** shall be considered as **NATURAL PLANETS** i.e. these planets might have been evolved before evolution of **FIRST HUMAN**. All other planets in the Universe probably might be evolved after evolution of first human. All other planets shall be considered as **sub species planets** i.e. planets evolved after evolution of first human.

It is hypothesized that the first human might have been evolved **spontaneously** due to impact of electromagnetic radiation (EMR) from **dark energy**. The first human had only three chromosome on origin and derived three chromosome each one from three fundamental neutrinos **PHOTON, ELECTRON, PROTON**. The three chromosome prehistoric human shall also be called as **STAR HUMAN**. It is further focused that the prehistoric human might have lived in **MARS planet** in prehistoric time with different environment condition and with different **genetic structure**. The star human shall also be considered as **MARS PRODUCT**.

5. Previous Publications

The concept of fundamental neutrinos, model Cosmo Universe origin of first human were published previously in **various international journals** which are listed blow. This article shall be considered as **extended version** of the previous publication with additional case studies and specifically pin point about the philosophy of **MARS RADIATION**.

6. Hypothesis

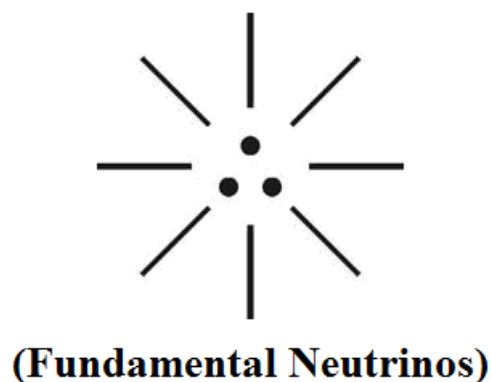

(1) **Philosophy of fundamental neutrinos**

PHOTON, ELECTRON, PROTON shall be considered as three fundamental charged particles which make up the whole Cosmo Universe. These three fundamental neutrinos shall be considered as responsible for **NEUTRINO RADIATION** which shall be hypothetically called as **MARS RADIATION**. The MARS radiation shall be considered as genome characteristics responsible for continual existence of all matters of Universe in **equilibrium condition**. The etymology of word neutrino might have been derived from the prehistoric Tamil phonetic **NUNTHIRI**. **NUNTHIRI** shall mean three minute particles.

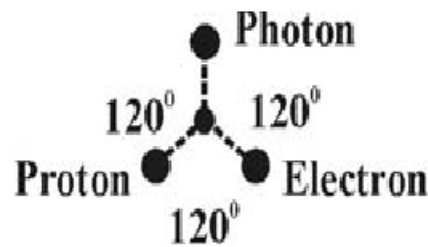

(i)

(ii)

(iii)

(Model Fundamental Neutrinos)

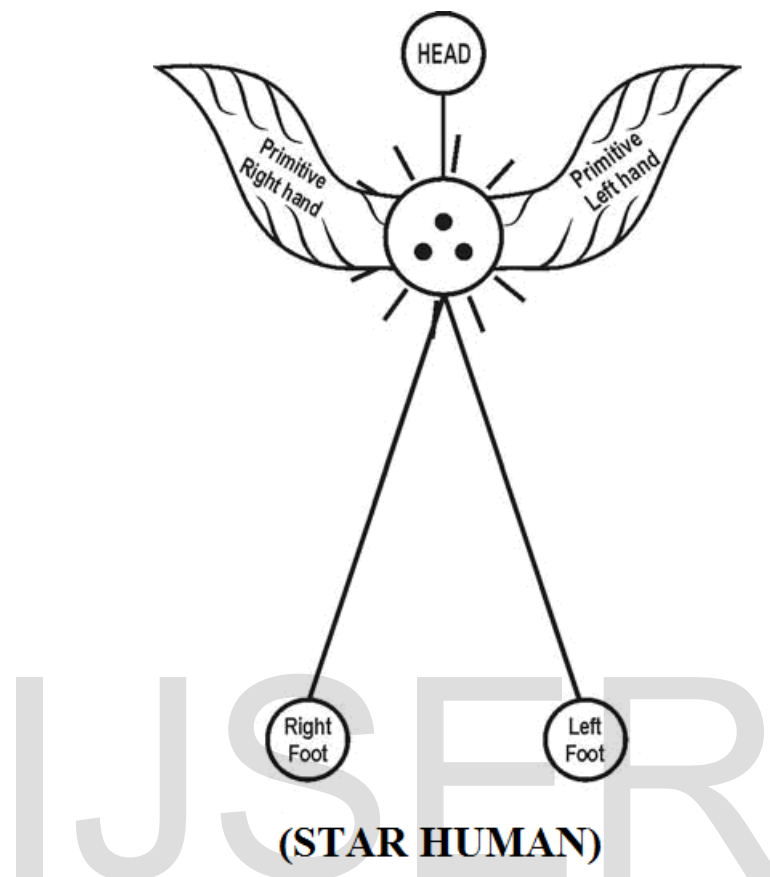

(2) Definition of fundamental neutrinos

In the early Universe “**Stardust**” shall be considered as composed of three fundamental neutrinos which are **THREE-IN-ONE** and three fundamental neutrinos might be evolved during the course of expanding Universe. The right dot shall be considered as **proton** responsible for functional part of Universe; the left dot shall be considered as **electron** responsible for structural part of Universe; the center dot shall be considered as **photon** responsible for law part of Universe (Genome).

It is hypothesized that the fundamental neutrinos shall be defined within the following **scope**:

- (1) The three neutrinos are **most fundamental**.
- (2) The three neutrinos have **no mass**.
- (3) The three neutrinos have definite charge i.e. proton has **positive charge**; electron has **negative charge**; photon has **no charge** or considered as **neutral**.
- (4) The three neutrinos shall be considered as symmetrically displaced by an angle of 120° .
- (5) **Atom** shall be considered as **species** to fundamental neutrinos which consists of sub atomic particles proton, neutron, electron.
- (6) The fundamental neutrinos shall be considered as traveling faster than the **speed of light**.
- (7) Electromagnetic radiation, lightning shall be considered as **species** to neutrino radiation and **LIGHT** shall be considered as **sub species** to neutrino radiation.

7. Model Prehistoric Human

The star human shall be considered as prehistoric human spontaneously evolved due to impact of three fundamental neutrinos PHOTON, ELECTRON, PROTON. The star human shall be considered as **TAMIL BASED INDIAN** lived in **MARS Planet** in different environmental conditions with different genetic structure. The prehistoric human shall be considered as experts in astronomy, well versed in advanced scientific language in **code form** and highly immune to lightning and other climatic changes issues. Hence the prehistoric human have lived for **long span of life** compared of modern human

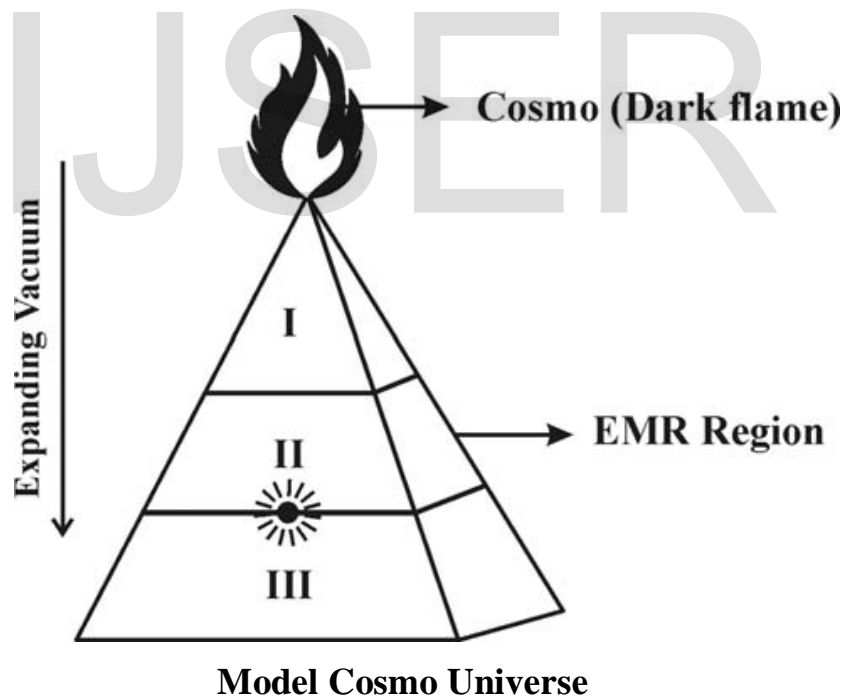

8. Model Cosmo Universe

The whole Cosmo Universe shall be considered as three regions of universe with different Physical, Chemical, Mathematical properties. Stardust shall be considered as the

CENTRO MERE of universe. The **SUN, EARTH, MOON** shall be considered as the triangular base of Cosmo Universe with interdependent characteristics one another.

Before evolution process the **STARDUST** shall be considered as a **cold flame**. When evolution begins three fundamental neutrino particles **PHOTON, ELECTRON, PROTON** shall be considered as evolved as **neutrino radiation** with origin of organized sound called as **AKKIE MUSIC**. The AKKIE Music alongwith neutrino radiation shall be considered as evolution of further electromagnetic radiation (EMR), various planets, molecules, matters and existence of various organisms including human in electromagnetic equilibrium under the **SHADOW OF AKKIE Music**. The philosophy of **AKKIE MUSIC** shall be understood from the theory of **SCHUMANN RESONANCE**.

The philosophy of **model Cosmo Universe, Neutrino particles** are indicated as below.

Region I – Perfect vacuum region (Anti-Neutrinos radiation)

Region II – Partial vacuum region (Neutrinos radiation)

Region III – Observable Vacuum region (EMR radiation)

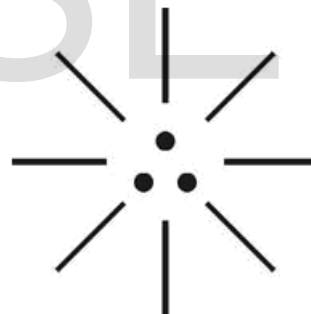

It is focused that **dark flame, white flame** shall have distinguished meaning in Astrophysics, Cosmo Universe. The dark flame shall be considered as origin of Universe composed of **THREE-IN-ONE** fundamental neutrinos which shall also be called as **anti neutrinos**. The white flame shall be considered as electromagnetic radiation composed of three fundamental neutrinos PHOTON, ELECTRON, PROTON. The fundamental neutrinos shall be considered as species to **ANTINEUTRINOS** evolved from dark flame. Antineutrinos shall be considered as having directly opposite characteristics to fundamental neutrinos and travels faster much more than the speed of neutrinos, electromagnetic radiation, lightning and light.

(i)

(COSMO)

(ii)

(White Flame)

9. HYPOTHETICAL NARRATION

1) Philosophy of Cosmo

The etymology of word Cosmo might be derived from the prehistoric Tamil phonetic **KOOMBU**. KOOMBU shall mean conical shape. Cosmo shall be considered as the centromere of Universe and it shall be considered as **CREATION** rather than

EVOLUTION. The Cosmo shall be considered as **dark flame** composed of three fundamental **antineutrinos** intact. The three fundamental neutrinos shall be considered as evolved from antineutrinos.

(i)

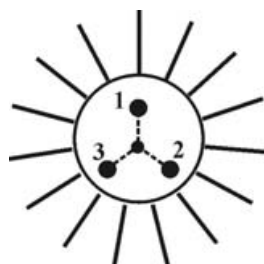

(Dark Flame)

(ii)

(MARS Radiation)

In quantum physics the concept of **dark matter**, dark energy was not clearly defined. It is hypothesized that the dark flame shall be considered as integral part of **THREE-IN-ONE** parameter i.e. dark genome, dark energy, dark matter. The dark matter shall be considered as responsible for functional part of Universe, the dark energy shall be considered as responsible for structural part of Universe, the genome shall be considered as responsible for law part (Sequence) of Universe.

1. Dark Genome
2. Dark Energy
3. Dark Matter

Fire shall be considered as **specibes** to dark flame. Further in medical term the **DNA, HORMONE, RNA** shall be considered as equivalent to three parameters of dark flame.

- i. Dark genome – RNA
- ii. Hormone – Dark energy
- iii. Dark matter – DNA

2) Philosophy of Universe

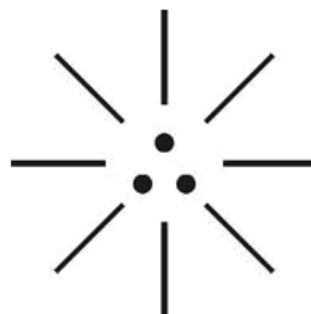

The etymology of word Universe might have been derived from the prehistoric Tamil phonetic **UNTHUTHAL**. UNTHUTHAL shall mean evolving force. It is focused that the early Universe shall be considered as only dark flame. During the course of electromagnetic radiation have been evolved from MARS radiation which is responsible for evolution of all matters and existence of matters under equilibrium condition. The modern Universe shall be considered as full of **species matters** evolved from fundamental neutrinos. Further the fundamental neutrinos shall be considered as strongly **binding** with dark flame under **STRONG GRAVITY**.

(i)

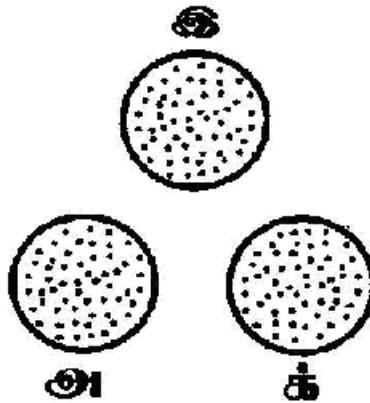

(Early Universe)

(ii)

(Middle Universe)

(iii)

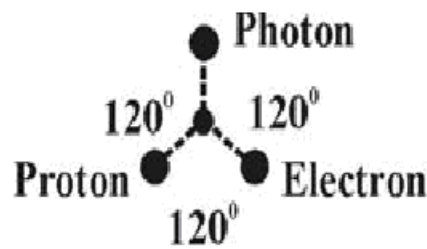

(Expanding Modern Universe)

The early Universe shall be considered as **REAL AND BLACK** Universe; the modern Universe shall be considered as **IMAGE AND WHITE** Universe. The white Universe shall be considered as the region of electromagnetic radiation where all matters such as galaxies, solar systems exists. Further the white Universe shall be considered as region of **electromagnetic spectrum** composed of three different region of electromagnetic radiation having different wave length and different frequency i.e. UV region, Visible region, IR region. The three different regions shall be considered as responsible for various color spectrum of Universe, various human species having different skin colors, different hair colour, different eye iris color.

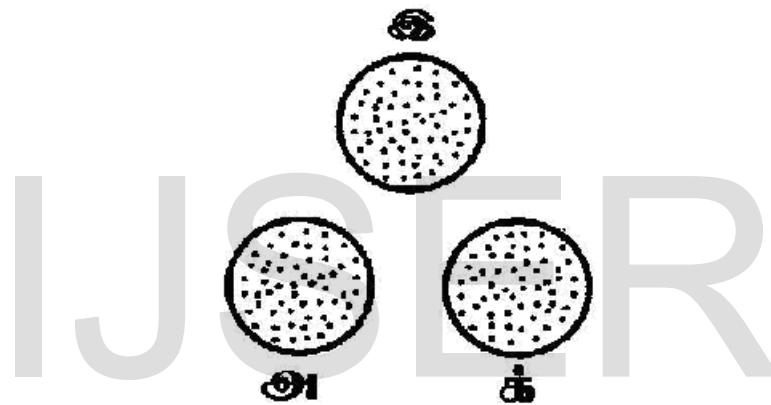

4) Philosophy of Neutrino Oscillation

In quantum physics neutrino oscillation normally means mixing of neutrinos which creates different flavors. There are so many current theories exist about neutrino oscillation such as two neutrinos probability theory, three neutrino probability theory, solar neutrino oscillation, atmospheric neutrino oscillation, reactor neutrino oscillation, beam neutrino oscillation. It is hypothesized by the author that the fundamental neutrinos shall be considered as **THREE-IN-ONE** mass free particles symmetrically displaced by an angle of 120° . This **THREE-IN-ONE** neutrino shall be capable of traveling faster than the speed of light and electromagnetic radiation. The light, electromagnetic radiation shall be considered as species to neutrino radiation having acquired **definite mass** during the course of **expanding Universe**.

(Neutrino Oscillation)

All other neutrinos observed during modern time such as electron, muon, tau, super nova shall be considered as species neutrinos to three fundamental neutrinos.

(Species Neutrinos)

5) Philosophy of Expanding Universe

It is hypothesized that the expanding Universe from origin to spontaneous evolution shall be considered as **SIX STAGES** as narrated below.

- i. Existence of eternal dark flame – Stage I
- ii. Evolution of antineutrino radiation from dark flame – Stage II
- iii. Evolution of stardust from antineutrinos – Stage III
- iv. Evolution of neutrino radiation from stardust – Stage IV
- v. Evolution of natural planets (MARS, SUN, EARTH, MOON) from neutrino radiation – Stage V

vi. Evolution of electromagnetic radiation and spontaneous origin of human –
Stage VI

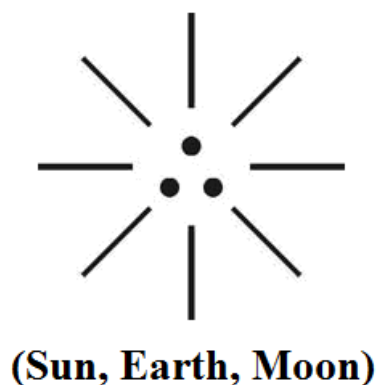

In quantum physics there is no clear theory about composition of stardust. It is hypothesized that the **STARDUST** shall be defined composed of three fundamental neutrinos PHOTON, ELECTRON, PROTON.

In quantum physics there is no clear theory about relative position of SUN, EARTH, MOON and evolution of first planet in the Universe. It is hypothesized that MARS planet shall be considered as the mother of all planets and centromere of material universe. Further SUN, EARTH, MOON species planets to the MARS planet. All other planets in the whole Cosmo Universe shall be considered as sub species planets to the MARS planet.

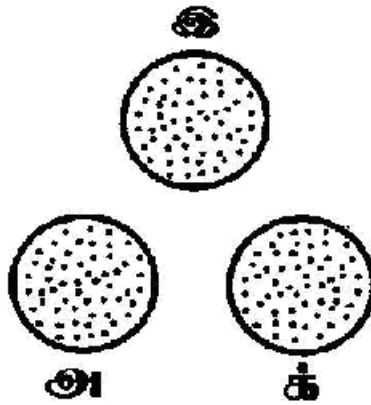

(1)

(2)

(3)

(Sub Species Planet)

In the early Universe the colour of MARS planet shall be considered as **BLACK**. It is hypothesized that subsequently during the evolution of electromagnetic radiation the colour of MARS planet might have become **RED**.

5) Philosophy of MARS Centered Solar System

There are so many astronomical theories exists about existence of many solar systems, many moons. It is hypothesized by the author that the whole Cosmo Universe contains only one sun, one earth, one moon. Further there is an existence of only one solar system centered by MARS planet. MARS planet shall be considered as centromere of the solar system.

Further It is hypothesized that SUN, EARTH, MOON never revolves any other planets but it rotates only on its axis. Further the energy for rotation of SUN, EARTH, MOON being derived from the electromagnetic radiation emanated from MARS planet. MARS planet shall be considered as source which **TRANSFORMS** neutrinos radiation (Aether energy) into electromagnetic radiation. It is also hypothesized that the sun completes **ONE CYCLE** during entire Cosmological life period from origin of sun to rotate. In other words the life of whole Cosmo Universe expires when the sun completes **ONE CYCLE**.

6) Etymology of Word “MARS”

The etymology of English word MARS is not clearly known. It is hypothesized that the etymology of English word MARS might have been derived from prehistoric Tamil phonetic “MAR”. MAR in singular shall mean **RAY**; MARS in plural shall mean RAYS or Radiation. The word MARS shall be defined within the following scope.

(i) MARS shall be considered as first planet evolved in the Universe. MARS planet shall be considered as mother of all planets. SUN, EARTH, MOON shall be considered as three species planet evolved from MARS planet.

(ii) MARS shall be considered as **WEB** and primary source of Cosmo radiation. MARS planet shall be considered as the primary source of **RADIOACTIVE MATERIAL**.

(iii) Electromagnetic radiation shall be considered as species radiation to the MARS radiation. The lightning shall be considered as sub species to the MARS radiation.

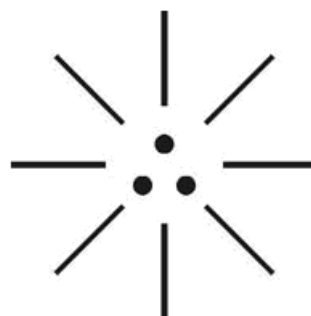

It is focused that the philosophy of **MARR** (Multi Axis Radio Region), MARS Tower might be derived from the prehistoric Tamil phonetic “MAR” which shall mean **Main Active Radium**.

(i)

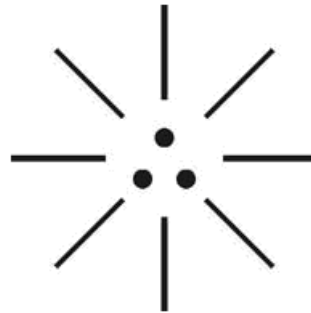

(Mars Planet)

(ii)

(Sun, Earth, Moon)

(iii)

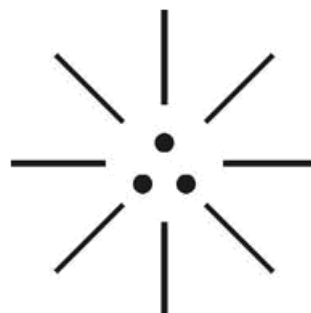

(MARS Radiation)

7) Philosophy of Natural Human and Species Human

It is focused that the prehistoric star human with three chromosome shall be considered as **NATURAL HUMAN** lived in MARS planet with different genetic structure. The species human shall be considered as modern human with 46 chromosome started living in **EARTH PLANET** with different genetic structure.

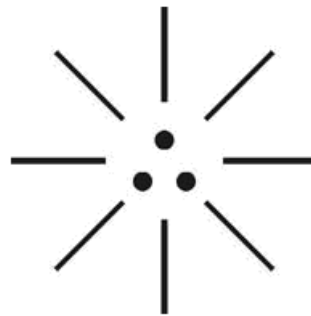

8) Philosophy of Human Soul

The etymology of English word soul is not clearly known. It is hypothesized by the author that the word soul might be derived from the prehistoric Tamil phonetic “**CHULE**”. Chule shall mean natural energy for existence of **LIFE**. It is focused that every human shall be considered as **MARS PRODUCT** embossed on human,

(MARS Emboss)

The right dot shall mean **right nipple** responsible for functional part of human; the left dot shall be considered as **left nipple** responsible for structural part of human; the center dot shall be considered as **navel (Umbilical Chord)** responsible for law part (Genome) of human. It is focused that human soul is closely associated and regulated by **MARS Radiation** of Cosmo Universe. Further the normal heart beat of every human is closely associated with **fundamental neutrinos oscillation**. The philosophy of fundamental neutrinos oscillation shall be understood from the theory of Schumann Resonance.

(HUMAN SOUL)

10. CONCLUSION

MARS radiation shall be considered as **SOUL** of material Universe which shall also be called as **TESLA REGION**. It is speculated that the concept of **Aether energy** focused by Tesla shall be considered as **MARS RADIATION**. Further It is hypothesized by the author that the whole Cosmo Universe contains **one SUN, one EARTH, one MOON**. The integral part of SUN, EARTH, MOON shall be considered as “**TRIANGULAR BASE**” of the whole **Cosmo Universe**.

11. Case Studies

(i) Case I

In 1931, a hypothetical particle is predicted by the theorist **WOLF GANG PAULI**. Pauli based his prediction on the fact that energy and momentum did not appear to be conserved in certain radioactive decays. Pauli suggested that this missing energy

might be carried off, unseen, by a neutral particle which was escaping detection. In 1998, the Super-Kamiokande collaboration announces evidence of non-zero neutrino mass at the Neutrino'98 conference.

(ii) Case II

In 1905, Albert Einstein established in special theory of relativity that the **speed of light** be the Universe absolute speed limit. But in 2011 the **OPERA** experiment observed that neutrinos travels **faster** than the speed of light. But another experiment called as **ICARUS** still trying to establish that neutrinos never exceeds the speed of light. It is hypothesized by author that the fundamental neutrinos has no **mass** and can travel faster than the speed of light.

(iii) Case III

<i>(i) Einstein was wrong: Aether exists</i>	<i>- Nikola Tesla</i>
<i>(ii) Einstein's theory have fooled the world for almost 100 years</i>	<i>- Ozo</i>
<i>(iii) Neutrinos travel one nanosecond faster than speed of Light.</i>	<i>- OPERA experiment</i>
<i>(iv) The laws of physics wouldn't change; only one universal constants.</i>	<i>- Grossman</i>
<i>(v) Einstein may not be wrong; He probably began his experiment in Region-III vacuum; But Aether exists.</i>	<i>- Author</i>
