**Abstract**— Astrological systems proved and gave best study reports many times unpredictable advance unknown science facts about astronomical celestial bodies on solar systems. In this connection here the scholar reformed the Nadi astrological rule and tells about the astrologically planetary connectivity involved during earthquake and affected place finding methods and its science facts.

**Keyword** — Nadi astrological, astronomical, no vision, zodiac direction, natural disaster, statistical tests, theoretical frame work invisibles celestial bodies.

## 1 INTRODUCTION

IN Astrological subject many method influenced in society. But the Bhriugu Nandi Nadi is one of the most powerful Astrology and also it helps to the astrologers at different ways to predict the humans futures with the support of unknown physiological connectivity at astronomical planetary positions. It developed and reformed by Mr .RG Rao at last century in India. In this method he says no vision at all planets each other like as basic Vedic astrology. He says same zodiac direction planets work together based on their Astro characters and places. That means Aries, Leo and Sagittarius are denotes Fiery and East directions also sign's placed Naksthra owners are also the same on three signs. So he treats at any planets placed on these at same directions and also works together at first level of eastern direction planets in this continues 1,5,9 connected together at first level and 3,7,11 at second level, 2 at third level and 12 at fourth level this is the one-point rule of R G Rao Bhriugu Nandhi Nadi astrology. The scholar discuss about the truth of Nadi methods and science facts of Nadi astrology based on that enhance the advancement of this Nadi systems

## 2 SCIENCE FACTS OF EARTH BODIES IN ASTROLOGY

Astrology namely denoted Jothidam that means the way of light connectivity relations of earth to its human and natures of earth bodies towards to nearby Astronomical Solid, Gases and Invisibles celestial bodies connected through unknown physiological energy radiations from based on the planetary positions. But its result finding methodology many disputes discussed scientists with astrologers, because of Astrology proved on statistical tests, existence astrological book law, theoretical frame work and reliability of the human. But we did not able to prove as a science at 100%, because presently known Physiological forces are not able to fully describe the relations of astronomical or astrological truth. But the same time no suffice to claim that the astrology is not a science. In astrological scientists 2500 years ago written many physiological facts now a day's approved after measured the instrumen-

tation like the distance of planets, rotation periods, planets mass, diameters and planets structures. Also we accept some connection is there between earth being human bodies and sun, moon all other planets. In continues the above subject the earth bodies are getting naturally gets all the planets character's if rough hills area means -Mars characters much more, River means moons characters much more, Green forest - Mercury characters, Hard earth -Saturn characters, sea shore earth means Raghu character, agriculture village man living earth means Jupiter characters, Industrial town covered earth - Venus character like all the planets involvements are continuously connected all earth bodies and dominated their activity. Also the Astrologically divided 12- Rasi with 4 direction eg. Aries, Leo and Sagittarius are indicated in East direction like all the bodies of earth direction also inter connected with planet position some unknown physiological radioactive energy.

## 3 EARTHQUAKE WITH PLANETARY CONNECTIVITY:

Earthquake is one of the major natural disasters that cannot be able to predict with us having current technology. Seismology says can be understanding the symptoms to realize the radioactive gases before 2 to 3 days of the event. But it cannot get a correct result all the events. Seismology says the cause will be happened due to internal earth plate moved each other on changed of unknown physiological energy exhaust from inside the earth parts. Astronomically science says all the planets are in the universe has been linked each other with unknown magnetic power heading with sun and all rotating and revolved manner at the same time entire universe also be rotating the galaxy and etc. During rotating and revolving process the ex-ordinary energy exhaust in the universe to sustain their position of rotation revolving path. It may be a cause of earthquake. In astrologically negatively charged planets nearing together based astrological connection on same planetary view point. The unpredictable natural disaster created.

Eg. Moon, Raghu, Mars and Saturn are connected together as per astrological connection the event ensured at all the cases.

#### 4 SCHOLAR'S ADVANCED RULE ON EARTHQUAKE:

With reference the statistics and ancient Nadi astrological book, statistical workout with more than 100 event's chart the scholar conclude all the 9 planets are responsible and connected together at the same connectivity angle during earthquake.

- When Saturn connected Sun, Jupiter connected Venus, Mars connected Mercury on the same time Moon triggered Rughu-Kedhu point the earth quake happened. Here the negatively charged planet Saturn or Venus + mercury indicating the place of event. Also the event time the Saturn retro stage, the cause magnitude much more the normal.
- In astrology says all the planets presentation continuously covered entire earth, human, animals, plants

body, etc. It can be varied time to time due to plants position. It must be involving major role in the connectivity and also inside earth the same changes accrue and it may be lead to earthquake.

- Also here to find astronomically one fact, the sub planet of earth is moon tried escape earth's rotation path with the support of Saturn, Raghu and push to Mars's path. It will not happen ever. But here earth exhaust enormous radioactive gas waves energy in the form of earthquake and do sustain moon on their path.
- In astro histologically connectivity period Deva group planets Jupiter, Mars, Sun to the Asura group planet Venues, Mercury, Saturn natural disasters has been happened.

#### 5 HIGHLY CHARGED MAGNITUDE EARTHQUAKE WEDS PLANETARY CONNECTIVITY AT LAST TWO CENTURY:

## 6 SAMPLE EARTHQUAKE EVENT WEDS PLANETARY CONNECTIVITY:

**Name of Event** : Sumetra Earthquake,  
**Time** : 0.58 AM(UTC)  
**Place** : Indonesia,  
**Date** : 26-10-2004

Here the time of event Moon connected to Raghu +Kudu 3-11 Nadi conjunction point and all the Deva and Asura opposite characteristics planets are connected each other in order to Jupiter-Venus at 3-11Nadi conjunction at 4 deg difference , Mars -Mercury at 1-1 Nadi conjunction at 13 deg difference , Sun -Saturn at 7-7 conjunction at 8 deg difference as per scholars rule . Also the Event indicating plant VE + ME placed in Southern watery Rasi .So the event happened in Centre southern part of the world and all the event indicating planet in watery rasi.so the event happened in inside the sea . The time of event the Jeeven Jupiter locked up between Retro Saturn and Kudu so the event's deadliest rate very high and the re-formed normalization period very high.

## 7 CONCLUSION

Scholar discuss about the science facts and astro planetary connectivity facts involve in the time earthquake and to prove the Nadi Rule based planets connectivity with the support of scholars advancement Nadi rule planetary connectivity. It will help to further study of Advanced Nadi Rule and also helps to the society to find the future nature's disasters in this methodology.
