## ***Author Submission and Abstract***

MARS Tribe shall be considered as prehistoric human population lived in MARS planet about 100 mya. The MARS population might have lived in prehistoric environmental condition with different genetic structure before started living on the Earth planet. The MAR population probably shifted to Earth by **natural selection** to suit the environmental condition on Earth. The concept of prehistoric human was already published in IJSER Vol.5 2013 under the title of “Super Scientist of Climate Control”, and in IJSRP Vol.4 2013 under the title of “Cosmo Superstar”. Hence this article “MARS TRIBE” shall be considered as the extended version of the previous articles published by same author.

There are so many super stars available in the **Modern World**. But **Cosmo Super Star** shall be considered as Prehistoric human populations lived in **MARS** having only **three chromosome** and were extraordinarily Intelligent and wise. They might have derived three chromosome one each from Sun, Earth, Moon on origin, and had balanced genetic value. In Prehistoric time the relative position of **Sun, Earth,**

**Moon** in the solar system was **symmetric**. Subsequently as **moon** is going away from its original position the **Modern human** might have been evolved due to **asymmetry** in relative position of Sun, Earth, Moon with different chromosome level and different **genetic value**.

It is speculated that the Prehistoric populations subsisted with **ozone** breath and subsequently modern human populations switched over to **oxygen** breath due to different environmental conditions. It is speculated that the MARS populations shall be considered as Prehistoric **TRIBE** lived in MARS. Further all the historical **Human Races** might have been originated from the **MARS TRIBE**. Billions of human races shall be considered as **species** and **subspecies** to Mars Tribe with different genetic characteristics.

At one stage the prehistoric MARS population might have been completely extinct due to continuous expanding Universe and various climate conditions, disasters which might not be suitable to the MARS Tribe population. It is speculated by the author that the populations of lost Lemuria continent, Atlantic might pertain to prehistoric MARS Tribe.

## **KEYWORDS**

Prehistoric Tribe, AB Blood group origin, Electromagnetic Radiation, Effect of Electromagnetic Radiation on Human species and races.

## **1. INTRODUCTION**

In the evolutionary science **Darwin Sir** already established that human ancestors are of **apes**. The Author was little bit worried and have strong feeling from the **School Stage** itself that human must have more **genetic value** than **apes**. After careful research and intensive scientific case study, it has come to conclusion that human is not of **apes lineage** and **Tamil based Indian** already lived in Mars Planet in **prehistoric time**. The Tamil based Indians who lived in MARS shall also be called as **MARS TRIBE**. It is speculated by the author that the MARS TRIBE be the first TRIBE originated. The word TRIBE shall mean **LIFE**. MARS TRIBE shall mean **MARS LIFE**. The English word **MARS** might have been derived from Prehistoric Tamil word **MARUDAM, MARBU**. **MARBU** shall mean **Heart**. **MARUDAM** shall mean **clay soil**. It is speculated that the first life might be originated from **MARUDAM SOIL**.

In the recent past, **NASA's MARS MISSION** also established that there was existence of **life** in Mars Planet. Thanks to **NASA's** for information about MARS. Further **NASA** have already started plans for conducting a tour to Mars by the year

**2018.** Based on the research I have brought out some **scientific articles** which were already published in **International Journal** after a high level editorial and **peer review** process. The details of publications of various article are available in **web-site** for kind **perusal** and further intensive **research** required, if any for the benefit of global populations for future survival and advancement.

In prehistoric time, the Tamil based Indian (Mars Tribe) might have been called in various names as follows.

**1) COSMO SUPER STAR,**

**2) SUPER SCIENTIST,**

**3) TRISOMY HUMAN,**

**4) MGR, Kannithai**

(i) The **Cosmo Super Star** shall mean the origin of first human **spontaneously** evolved due to impact of electro magnetic radiation from **dark matter** (Mars Soil). The prehistoric Mars Tribe shall also be called as **Star Human** as they were evolved from fundamental space **neutrinos (Photon, Electron, Proton)**. In **Greek Mythology** there is a belief that existence of **Star human** in prehistoric time.

(ii) The prehistoric Mars Tribe shall also be called as **Super Scientist** as they were expert in **astronomical science, Solar System, climate control issues**, against earthquakes, advanced digital communication with code system called as **Mars Code**. The prehistoric populations have already constructed **Giant Pyramid** like structures as Towers in Mars planet, Earth planet, Moon, etc., for effective controlling over **inter planetary disorder** during climate change, **volcanic eruption, earthquake, etc.**

(iii) The prehistoric Mars Tribe shall also be called as **Trisomy human**. Trisomy human shall mean, human of **3 chromosome** on origin and these 3 chromosomes are hypothesized to have derived one each from **Photon, Electron, Proton**. Further at that time the **Mars planet** was highly influenced with **ozone** and the trisomy human might have subsisted with **ozone breath**. Subsequently due to gradual reduction of ozone layer, the prehistoric Mars Tribe must have been **extinct** and there might be evolution for modern human with **46 chromosomes** and switched over to **oxygen breath** at later period after evolution of **oxygen from ozone**.

(iv) The prehistoric Mars Tribe might have also called **MGR** in short. The **acronym** of **MGR** shall mean **MARS GEO RULER**. Further the Mars population might have also been called as **PURACHIYALAR** which means **Warrior** in English. The term **Purachi** shall mean a movement for restoring **Harmony** and **peace** among Planets. The etymology of English word **Purge** might be derived from Tamil Phonetics **Purachi**. **Kannithai** shall mean mother of **MARS**. Further the acronym of **KANNI** shall mean **KINDRED AMMU NAD OF NATURAL INDIA**. In prehistoric time the **MARS** Tribe might have spoken **KANNITAMIL**.

## (KANNITAMIL ALPHABET)

It is focused by the Author that a prehistoric Mars Tribe had different environment condition and different genetic structure and the present environment of Mars may not support life of modern human having 46 chromosome. Hence it is speculated by the Author that any attempt to dwell on Mars planet may be a useless attempt. Quakes not only occur on Earth but also occur on MARS, MOON as well. Further there is no availability of Diesel/petrol at MARS. Of Course Modern human can manage the Automobiles with naturally available Aether radiant energy, but modern human genetic structure shall not support for permanent live.

## 2. FOUR MAIN HYPOTHESIS

(i) **MARS TRIBE** shall be considered as the **origin of first human** lived in **MARS PLANET** in **prehistoric time**. The Mars Tribe might have different **genetic** characteristics when live in **MARS**.

(ii) During the Course of time in the **expanding Universe** the prehistoric Mars tribe populations might have been completely **extinct** due to various climatic change environment and new human with different genetic structure might have been evolved and started living on Earth at **later period**.

(iii) In prehistoric time the word **TRIBE** shall mean electro magnetic spectrum. Further the etymology of word Tribe might have been derived from prehistoric Tamil Phonetics **Thiri, Thirivu, thiraidhal**. Thiri shall mean electromagnetic radiation, Thirivu shall mean diversity, Thiraidhal shall mean split.

(iv) It is hypothesized by the author that the prehistoric **MARS TRIBE** shall be considered as **SEED** and **GENETIC LINK** to human populations on the **EARTH**. **MARS TRIBE** shall mean **MARS HUMAN**.

## 3. NEW DEFINITION OF TRIBE, RACE

The word **tribe** normally refers to human race of Illiterate, low class in profession, low economic status etc. It is focused by the author that **TRIBE** shall mean **HUMAN** higher genetic value. Further, the **MARS TRIBE** shall be considered

as having advanced scientific knowledge in Astronomy, climate change control issues, advanced in Prehistoric Communication in **CODE** form and hence Mars tribe shall be also called as **SUPER SCIENTISTS** having **Super wisdom**.

Subsequently various **human races** might have been originated from **MARS TRIBE** which might be recorded in **Anthropological History**. It is hypothesized by the author that the word **Tribe, Race**, have different meaning and there is distinction between **TRIBE** and **RACE**. **MARS TRIBE** shall be considered as **MISSING LINK** to the Human Races of **EARTH**. The term **TRIBE** shall be **defined** within the following scope:

- i) The Prehistoric human who lived in **MARS**.
- ii) The Prehistoric human who had only **3 chromosome**.
- iii) The Prehistoric human who had different **genetic** characteristics.
- iv) **MARS TRIBE** might have had only single **AB** type blood on origin and shall be considered as **Universal Acceptor Blood**.
- v) **ABORIGINAL** shall mean **AB + ORIGINAL**.

The term **RACE** shall be **defined** within the following scope:

- i) The ancient/Modern human populations who lived in **EARTH**.
- ii) The Ancient/Modern populations who have **46 chromosome**.
- iii) The Ancient/Modern populations with **modified genetic characteristics**.
- iv) The Ancient/Modern populations Subsist with Four blood type AB, A,B,O derived due to their own **Natural Selection** process due to different environmental conditions.
- v) **RACE** shall mean like billions of **RAYS** in electromagnetic spectrum with different magnitude level, different frequency level, emanated from the **Common Source**. Billions of human races shall be considered derived from the common **MARS TRIBE** with **AB** blood type source.

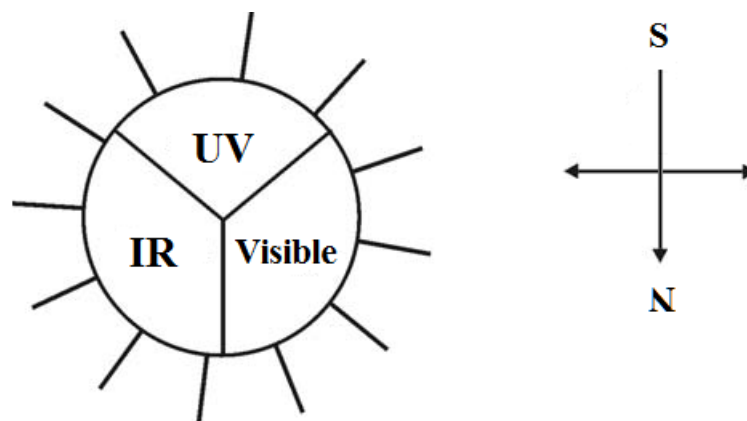

<p><i><b>TRIBE</b> shall mean Human with 3 chromosomes (MARS HUMAN)</i></p> <p><i><b>RACE</b> shall mean Human with 46 chromosomes (EARTH HUMAN)</i></p>
--

## 4. HYPOTHETICAL NARRATION:

In anthropological history, human genetic science the word tribe, race are commonly used interchangeably. The American anthropological association is a major global organization in anthropology classified the study of **human races** in major four sub field physical, archeology, ethnology, linguistic. However there is no clear definition established for distinguishing of tribe and race.

Further in global language the English word tribe is called with keyword of **Tri**. It is hypothesized by author that the etymology of word Tri, Tribe might be derived from prehistoric Tamil phonetic as stipulated in the hypothesis.

It is hypothesized by the author that the Tamil phonetics **Thiri** shall mean electromagnetic radiation and kathiri, Karaithiri, shall mean black radiation. It is focused that the electromagnetic radiation source on split diversified into major three division region called **UV, VISIBLE, IR**. Further each regions shall be considered as having billions of minute ray elements called as electro magnetic ray, electro magnetic radiation. It is hypothesized by the author that billions of species, sub species of organisms might have been evolved during the course of expanding universe having different genetic characteristic such as **Colour of Skin, Colour of Hair, Colour of Eye Iris, Physical appearance, Intelligence variation**, depends upon the intensity of electromagnetic radiation of the particular region where the particular population live. The group of population having common characteristic covered by the particular ray which shall be called as **RACE** i.e. **RAY** has become **RACE**.

**TRIBE**  
(Electromagnetic Spectrum)

It is focused that each region consists of billions of micro dots which are responsible for evolution of billions of species and sub species within the region. However if the population crosses from one region to other region there may be possibility of evolution of new genus in the organism.

*It is hypothesized that every person within the same family shall be considered as a different race just like mobile **SIM card**. Every one shall have different gene count, gene matching within the same family.*

*-Author*

It is focused by the author that the prehistoric MARS Tribe are expert in biological science formulated the evolution of various genus, species, sub species due to impact of electromagnetic radiation with three tiny dots called as **MARS CODE**. Right dot shall mean IR region, left dot shall mean visible region, center dot shall mean UV region.

**TRIBE**

**(Genus, Species, Sub Species)**

It is hypothesized that the word **ETHNIC** may be related to different genetic value. Case study shows that in ancient Rome state tribe refers to original tripartite ethnic divisions **ramness, titiles, luceres**. It is speculated that these three ethnic groups might belong to different genetic structure due to impact of electromagnetic radiation of the respective region.

## **5. MARS WEB GENE?**

It is focused by the author that so far there is no distinguished definition between **Tribe** and **Race** but both the terms are used in either way, in Anthropological Science. It is focused by the author that tribe may be referred to chromosome and race may be referred to gene within the chromosome.

## ***6. CULTURAL FOCUS:***

“**TRIBE**” the word has great impact on global level human races in human **Anthropology**. It is speculated by the author that the word tribe not only linked with **human art and culture** but it is closely associated with **human science**, (i.e.) it shall be closely connected with **human origin and genetics**. It shall be focused that the word **Tribe** shall be termed as “**Centro mere of genetic web**” of human races. As per **Oxford English** dictionary, the meaning of **Tribe** shall be understood as follows.

- (i) **Tribe** refers to a group of people of the same race and with the same customs, language, religion etc living in a particular area often led by a **chief**.
- (ii) **Tribe** refers to a group (or) class of people especially of one **profession**.
- (iii) **In biological term**, **Tribe** refers to a group of related animals and plants.
- (iv) **Tribe** refers to a large number of people one or two of the grand children will be there, but not the whole tribe.

It is focused by the author that all the **historical human races** might have been derived from the web **gene** of prehistoric **MARS TRIBE**.

## ***7. PRE-HISTORIC MARS LANDS?***

It is focused by the author that **ADAM** populations stipulated in **BIBLE** probably lived in **MARS** in prehistoric time. While living in **MARS** the Adam populations might have had different **genetic structure** to suit the prehistoric environmental conditions of **MARS**. Further it is focused that the prehistoric lands such as **MORIAH, MARDUK, MARAH, MARI** etc shall be considered as cities of most advanced civilizations of **MARS** in prehistoric time. During the course continuous **expanding universe** the populations of prehistoric **MARS TRIBE** might have been completely **extinct** due to various subsequent environmental conditions and switched over to **EARTH**. The prehistoric populations were well expert in **Astronomical science, Engineering science, Biological science, Digital communications**.

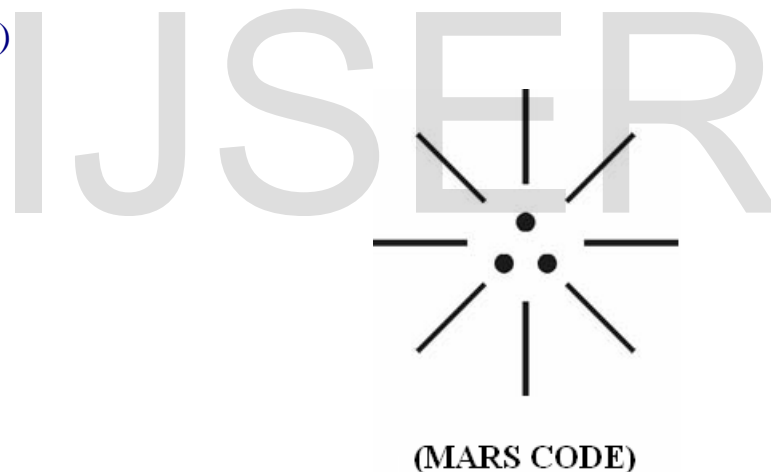

*If so ADAM is MARS TRIBE?*

## **8. MODEL MARS TRIBE?**

It is focused that the prehistoric Adam populations (Mars Tribe) shall also be considered as **STAR HUMAN**. Further they shall be considered as evolved **spontaneously** from **dark matter** due to impact of electromagnetic radiation (**EMR**). The MARS TRIBE, expert in Biological science, molecular chemistry, have formulated the molecular structure of 3 chromosomes human with **three tiny dot** in **prehistoric language** in code form called as **MARS CODE**. Mars code shall be considered as Prehistoric **Scientific Alphabet** in code form.

(i)

(MARS CODE)

The Mars Code shall be considered as the Single Code used by **Mars Tribe** to represent billions of Meanings. Mars Code shall also be considered as Electromagnetic alphabet used in advanced digital communication comprising Millions of **LOGICS**.

(ii)

**(MOLECULAR CODE)**

(iii)

**(MARS TRIBE)**

## ***9. ETYMOLOGY OF WORD MARS?***

The etymology of word **MARS** might be derived from prehistoric tamil phonetics **MARBU, MARUDAM**. **MARBU** shall mean **Heart** covered with **web** of chest bones. **MARUDAM** shall mean **clay soil**.

## ***10. CASE STUDY***

### ***(i) Spontaneous evolution is possible?***

It is hypothesized that the **origin of life** on earth still exists as **mystery** in biological science. It is focused that Electromagnetic radiation is responsible for origin of life and evolution of various organisms without electromagnetic radiation is impossible. This facts were well narrated in the scientific article title as a) Cosmo super star which was published in **IJSRP** in issue 4, 2013. Cosmo Super Star?

### ***(ii) Human races like electromagnetic rays?***

It is focused that various races of human at global level with different genetic characteristics **skin colour, hair colour, eye Iris colour** shall be considered as evolved due to impact of electromagnetic radiation intensity in different parts of world. Billions of genetic diversity shall be considered incorporated within **three regions** of electromagnetic spectrum (i.e.) UV Region, Visible Region, IR Region. The word **chroma, chromosome** might be derived from the philosophy of **chrome**. Chroma shall be mean the degree to which the colour is pure or strong. The word **Corona** related to space colour might be derived from **chrome**.

**In music** the word **chromatic** might be derived from the philosophy of **chrome** distinguished by different level of frequency. Chromatic shall mean a series of **Musical notes** that rise and fall in **semitones, Half tones**.

The word **chronological** might be derived from the philosophy of **chrome** specifying certain order according different wavelength, frequency chronological refers to an array in the **order** in which they happened. It is hypothesized by the author that the **lineage** of evolution of various organisms shall be classified according to **chromosome level**.

The facts of evolution of various organisms were well narrated In other words the different intensity level of electromagnetic radiation in different parts of the world determines the **genetic value** of that particular area of **human race**.

In electromagnetic spectrum billions of rays shall be considered emitted under, three spectral regions (i.e.) **UV region, Visible region, IR region**. The Mars tribe might have in-built three spectral region have different characteristics of different wavelength, different frequency. The **Prism** shall be considered as Universal Human Races of electromagnetic spectrum from the common source of **EMR**.

### *(iii) Hypothetical Narration on Bible Study*

**TRIBE** shall be considered as Prehistoric human lived in **MARS**. It is speculated by the author that the **ADAM** populations stipulated in the **BIBLE** probably lived in **MARS PLANET** in prehistoric time. Further, the Adam populations shall be called as **prehistoric Tribe**. Due to Prehistoric climate change condition, the Adam Tribe might have been completely **extinct** at stage and **new human races** with 46 chromosome might have evolved by natural selection and started living on the earth. It is hypothesized by the Author that the philosophy of **HMUAN RACE** might have begun from **NOAH'S ORIGIN**. The twelve Tribes of **ISRAEL** shall be considered as 3 chromosome populations diversified as 12 Ethnic Tribal Groups.

### *(iv) What is TRINITY?*

It is focused by the author that **Trinity** shall be considered as the Prehistoric Tribal law followed by **MARS TRIBE** when lived in **MARS**.

The right dot shall be considered as law of **LOVE** (functional part), left dot shall be considered as law of **MERCY** (structural part), centre dot shall be considered as Law of **REDEPTION**.

## **(MARS TRIBAL LAW)**

The Mars Tribal law shall be considered as the fundamental universal law for all **human races**.

The etymology of word **Tribute, Tribune, Tribunal** might be derived from the philosophy of **MARS TRIBAL LAW**. It is focused by the author that the Mars tribal law consists of three fundamental parameter. Millions of laws pertain to various Tribal races in human Anthropology shall be considered as **subspecies law** to the three fundamental elements of **MARS TRIBAL LAW**.

### ***(v) What is Triage?***

**TRIAGE** shall be considered as the Prehistoric **MARS TRIBE** Culture during emergency Medical operations. The fundamental colour **BLUE, GREEN, RED** adopted might be derived from prehistoric MARS Tribal culture to distinguish the level of emergency during emergency situation.

### ***(vi) Centromere electromagnetic Link?***

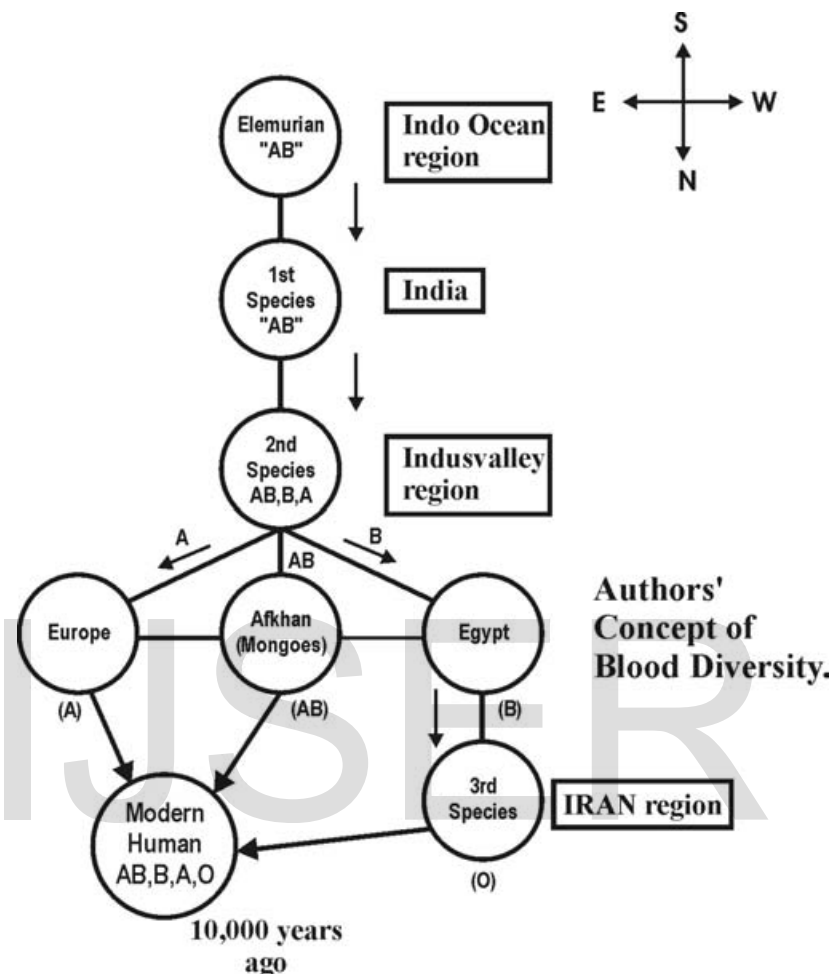

It is hypothesized by the author that **NAVEL** of every human shall be considered as the **electromagnetic sensor** deriving its genetic characteristics from free space naturally which consists of **three-in-one** Neutrinos **Photon, Electron, Proton**.

Scientifically **TRIBE** shall be defined by the author that a prehistoric common ancestor emanating Billions of electromagnetic radiation consists of fundamental genetic characteristics derived from three fundamental Neutrinos.

Every human shall be considered as having different genetic characteristics identified as **single** ray connected to common EMR Source (Billions of spectral rays) sensed through **NAVEL** and being regulated **everyday**.

*Everyone shall be considered like a Mobile phone mobile care **Sim card** connected to Master **EMR** spectrum through **NAVEL**. –*

### *(vii) Hypothetical blood diversity*

It is hypothesized by the author that from prehistoric time to modern time there may be three states of blood group might have been evolved due to impact of electromagnetic radiation. 'O' type blood (universal donor) might be evolved during modern period.

- i. Stage i – AB type only (MARS TRIBE)
- ii. Stage ii – AB, A, B (DRAVIDIAN ORIGIN)
- iii. Stage iii – AB, A, B, O (ARYAN ORIGIN)

### *(viii) Case study on racism*

- The earliest form of racism may have been introduced and practiced by wandering barbarians **from Erasia, who spoke a variety of languages before the Black Aryan (Indo-Aryan) languages** of India was taught to them. These barbarians were Caucasian for the most part, although there were Black chiefs among them, **according to Chancellor Williams in his book, The Destruction of Black Civilization (Third World Press, Chicago; 1976).**
- **Later, after the influence of the Black Dravidians, Black Tartars and other Black Negroid and Australoid types who lived in Asia in ancient times** (and who still do today), the barbarians learned various skills, including how to hitch horses to carriages and how to ride horses for purposes of war. These techniques learned from the Blacks of Asia was used to invade the ancient Black civilizations of the region. India was one of the first to be infiltrated, followed by other Black civilizations to the south, including Mesopotamia and Egypt. Between 2000 B.C. to about 1500 B.C., waves of the northern barbarians invaded India. All did not enter ancient India as an invasion force, since they were not militarily strong enough to defeat the mighty Black armies of the ancient **Ethiopic Dravidian Indians**. In fact, many barbarians came in trickles, looking for food and lodging in what was one of the **greatest Black civilizations earth, and one of the most ancient.**
- Long before the infiltrations of the aliens, India's wealth, culture, architecture, civilization was legendary. **The ancient Indians belonged to the Kushite African race**, still numerous in a wide area of the globe, spread from India in the East to Senegal in the West. Of this group of ancient Blacks, the **Naga People** were and still are the largest subgroup of the **Kushitic speaking** branch of the Black African race. In fact, the Nagas still retain the title "Naga" in various forms throughout Africa and South Asia even today. There are many examples of the term "Naga" still being used to describe various groups in **Africa and Asia**, who are all of the Kushitic branch of **the Black African race**. For example, the Blacks of West Africa were called "Nugarmar-ta." "Nagomina" is the name of a tribe from West Africa, who were part of a series of great civilizations which existed in the region before 1000 B.C. The "Naga," are another group of people related to **India's Naga people**, who live in various parts of East Africa and in the nation of Sudan, the original homeland of all Naga and other Kushitic Black peoples. The word "Nahas" is another word for "Nubian." Names of tribes and nationalities such as "Nuer," "Nuba," "Nubian" are all related to the Naga tribes of India and South Asia.

Long before the barbarians infiltrated India, the Blacks (Naga, Negrito, Negroid and all those belonging to the Negroid-Australoid Black race, as well as pure Negritic racial types ruled India as well as a substantial portion of **Asia from Arabia to China** and the South Pacific, as well as the Indian Ocean region. In India, the Blacks built one of the world's most magnificent and glorious civilizations. This civilization had been developing since about 6000 years before Christ. The magnificent cities of **Harrappa and Mohenjo-daro** are two of the many cities built by these Blacks. These

cities cover large regions of Northern India and Pakistan. Wayne Chandler explains in the book, *African Presence in Early Asia* (edt. by Ivan Van Sertima, Transaction Publishers, Newbruinswick, NJ; 1985, p. 83), "The Jewel in the Lotus: The Ethiopian Presence in the **Indus Valley Civilization**," "Mohenjo-daro and Harrappa, the greatest examples of Harrappan architecture were built between 3000 B.C. and 2500 B.C.; these masterpieces of Harappan city planning were the culmination of towns and villages which date from 6000 B.C. to 7000 B.C."

## ***11. CONCLUSION***

In human anthropology Tribe and various human races are not clearly defined. In medical science also the exact difference between tribe and human races are not clearly established. The philosophy of Tribe shall be referred to three chromosome prehistoric human lived in MARS. In other words Tribe shall means prehistoric human originated with three chromosome in the lineage of evolution of organism. The Tribe shall be considered as first organism evolved and much senior to Mosquito, Amoeba which are having 6 chromosome, 12 chromosome respectively. The subsequently evolved modern human may be subject to so many races and species due to impact of intensity of electromagnetic radiation where the particular population lives in that region.

IJSER
