Abstract

*In evolutionary Science Charles Darwin Sir have already established that **Human ancestors** are of APES Lineage. The human is scientifically defined as **Homo-Sapien-Sapien** and believed to have originated from **Hominid**.*

*It is speculated that human might have higher **genetic value** compared to Apes. Further it is speculated that Apes probably descended from human in the evolutionary lineage.*

*It is speculated that Tamil based Indian have lived in **MARS** planet in prehistoric time say about 100 **mya**. The Planet MARS probably called by*

name **EZHEM** also. **MARS** (**EZHEM**) shall be called as Mother of all planets including **SUN**. In astronomical science the term **EZHEM** shall be considered as Mother of all planets in Prehistoric time and subsequently called as **MARS**. The term **Ezhem** shall mean land of **Black soil, clay soil**. The etymology of word **Ezha**, Element be derived from pre-historic Tamil phonetics **EZHEM** (**MARS**). The Biblical **ADAM, EVE** might have lived in the land of **Ezhem** in prehistoric time. **ADAM, EVE** probably called also as **MGR, KANNITHAI** in the land of **Ezhem**. **MGR** shall mean the **Marshal** of **Ezhem** and **KANNITHAI** shall mean the mother of **Ezhem**. Further the Acronym **MGR** shall mean “**MARS GEO RULER**”, and the acronym **KANNI** shall mean “**KINDRED AMMU NAD OF NATURAL INDIA**”.

Further the Prehistoric lands stated in the Bible such as **MORIAH, MARDUK, MARAH, MARI**, might belong to land of “**JJ**” (**Jehovah Jacob**) where the black soil **Ezhem** populations lived and the language spoken by them might be **Kanni Tamil**.

During the course of expansion of Universe the **Ehem** populations might have been completely **extinct** due to various climatic condition before new generation started living on **Earth**.

Further the prehistoric populations of **Lost continent of Lemuriah (MORIAH)**, Atlantic, might belong to the land of black soil **Ezhem** populations.

It is focused that the prehistoric populations who lived in land of **Ezhem** (**MARS**) might be the **seed** and **Genetic link** to the human populations who started living on **Earth** at much later period.

It is further focused that the prehistoric populations had different genetic structure, capable of flying in the space, and expert in astronomical

science, climatic control issues, advanced communication techniques with electromagnetic wave.

Key words

Foreword

*The present universe is considered to have so many planets, satellites, comets, asteroids. Further the whole Cosmo universe is believed to have many independent solar system and milky ways. The universe is believed to have formed before 13.7 billion years and evolved from cloud of star dust as per standard model focused by **big bang theory**.*

As per international astronomical union definition our present solar system consists of 8 planets and our solar system is believed to have formed around 4.6 billion years ago.

Regarding origin of universe, various planets there are so many astronomical theories are in existence focused by many scientists like Galileo, Copernicus, Hawking, Frideman, Hubble, Einstein, Tesla, Newton, etc. Hubble discovered that the universe is composed of thousands of galaxies. Aristotle proposed an earth centered universe in which earth is

stationary and the cosmo universe is finite in extent but infinite in time. Aristarchus of Samos proposed sun centered universe.

*But so far there is no theory for proposal of standard model of cosmo universe. Further there is no standard theory about evolution of first planet in the universe. It is understood that regarding formation of moon **theia** is the best current theory for the formation of moon which focused that moon was formed due to giant impact between the proto earth and a mars sized impacter. As per case studies on astronomical science the age of mars, sun, earth, moon are indicated as follows:*

- a) Mars - 4.6 billion years*
- b) Sun - 4.57 billion years*
- c) Earth - 4.54 billion years*
- d) Moon - 4.48 billion years.*

It is focused that the prehistoric population while lived in mars (Ezhem) were experts in astronomy and formulated that sun, earth, moon were evolved from mars. In other words sun, earth, moon shall be considered as three fundamental planets evolved from mars planet. All other planets, satellites, comets, asteroids shall be considered as sub species space objects to the fundamental three space objects sun, earth, moon.

Introduction

*It is focused that the origin of life is still under **mystery** among Biologists. Biologists believe that **Life** might be originated from **Life matter**. The universe is believed to have originated from **star dust** particles which are*

*considered as non-life matter. But **creationists** believe that the first life might have been created and having derived **genetic value** naturally on origin. But primordial soup theory confirmed that spontaneous origin of life could not be possible due to impact of **lightning**.*

What was first Planet evolved?.... How the first life was originated?... What was the first life originated?... What is the chromosome number of First Life?

- Author

*It is focused that the first life might have been originated **spontaneously** due to impact of electro magnetic radiation from **dark energy**. The electromagnetic radiation (EMR) shall be considered as the Prime energy responsible for spontaneous generation of life as well as all matter life planets, Gas, Water etc. in the material region of universe. All the matters, including life organisms such as human, plants, animals including human blood, Urine, etc. shall be considered as the **Byproduct** of electromagnetic equilibrium. Under different environment conditions such as different pressure, Density, gravity, different level of electromagnetic radiation intensity, different wavelength and different frequency. It is focused that the **characteristics** properties of electromagnetic radiation is much more different than the characteristics and properties of **Lightning**.*

*Spontaneous generation of Life may not be possible by **lightning**. But it is possible by **Electromagnetic radiation (EMR)***

– Author

*It is speculated that three fundamental neutrinos **photon, electron, proton** (Tamil Neutrinos) are responsible for generation of electromagnetic radiation and these **three** fundamental neutrinos might have been evolved from **star dust** during evolution of universe. The stardust shall be considered as creative product **Dark Flame**. **Dark Flame** shall be considered as the centromere of **Cosmo Universe**.*

*It is speculated that the first human might be originated spontaneously due to impact of electromagnetic radiation and started living in prehistoric **Ezhem land** (MARS). The first human had only **three chromosome** on origin and derived **three chromosome** from three neutrinos one each from **photon, electron, proton**. These three fundamental neutrinos shall be considered as **Godly particles** existing naturally in the universe. The first human shall be called **Star Human**. In other words the prehistoric populations lived in the land of **Ezhem** shall be considered as the **Natural Human**. The modern human with 46 chromosome shall be considered **descended** from natural human at later period.*

*It is speculated by the author that the Biblical **HEAVENLY FATHER** probably created the entire universe and life having **Head Quarter at Ezhem**. Further in prehistoric time the **POPE** shall be considered as the **Angel** of heavenly Father having Ezhem as Headquarter. During the course of time the head quarter of **Pope** might be shifted to **VATICAN** at much later period. The philosophy of Prehistoric human, fundamental neutrinos, cosmo universe, was already published in the scientific article in *IJSRP*, issue 4, 2013, titled as *Cosmo Superstar* and in *IJSER*, issue 5, 2013 titled as *Super Scientist of climate control*. This article shall be considered as extended version of previous published articles with additional research, case studies to focus about the philosophy of Ezhem, and origin of Earth from Ezhem (MARS).*

The Cosmo region shall be considered as the highly **Cold** region emitting Black radiation. Region III shall be considered as the highly **hot** region.

viii. *How Akkilan looks like?*

*It is focused that the modern human having two hands with proper figures. It is hypothesized that the prehistoric populations while living in **MARS (EZHEM)** might be having **wing like hands** in the **primitive** level due to different chromosome level and genetic structure. Further the **48** chromosome **Apes** are slightly deviated hands structure compared to **modern human**. It is focused that **3 chromosome** human, **46** chromosome human shall be considered much **senior to Apes** which is having **48** chromosome.*
