**Abstract :** The researched Hadith of Prophet Muhammad P.B.U.H. about Rajab fasting was a narrated hadith of Ibn 'Abbas booked by Muslim. In hadith above, there were some narrators/rawi such as Abu Bakr Ibn Aby Shaybah, Abd Allah Ibn Numair, Uthman Ibn Hakim al Ansari, Sa'id Ibn Jubayr and Abd Allah Ibn 'Abbas.

In his partial analyses, there were some conclusions that: 1. All of narrators that involved in Hadith sanad were qualified: 2. Thiqah, All the narrators met with another narrators as the teachers: 3. And the hadith matan was free from shadh aspect: 4. The hadith matan was free from illat. So it can be concluded that narrated hadiths of Anas Ibn Malik which were collected by Muslim were qualified (sahih).

In simultaneous analyzes, found that that hadith had 4 (four) tabi' qasir. Because all of the narrators who were narrated by Muslim were thiqah qualified and the sanad connectivity was also muttasil, so the present of 4 tabi' 'hadiths couldn't improve the quality of main hadith sanad or mutaba' that had been sahih in quality.

Later on, simultaneously, that hadith had 4 (four) shahid ma'nawi hadiths. Those hadiths were narrated by 4 (four) different friends, as: Sa'id Ibn Sa'id, Anas Ibn Malik, 'Abd Allah Ibn 'Umar, and Abi Dharr. So the hadith of Rajab fasting had been narrated by 5 (five) friends. Thus, quantitatively, those hadiths improved to be mashhur (ahad mashhur) because they were narrated by five friends.

**Keywords:** Hadith, Rajab, Partial, Simultaneous, Sahih and Mashhur.

## 1. Introduction

Al-Qur'an and Hadith were the source of Islam teaching. Al Quran as the major sources and basic teaching of Islam is not necessary to be conducted a research because Al Quran has a *qat' al wurud* status. In the other hand, hadith needs some research first to be the source of basic Islam teaching to ensure that the hadiths are really from Prophet Muhammad saw.. Because of that, hadith had *Zanni al wurud* status. Researching hadith doesn't mean examining or doubting the massager or prophet Muhammad pbuh., but to measure or examine on everything stated by prophet Muhammad saw. was really his narration, attitudes and *taqrir* of prophet Muhammad pbuh.

According to Syuhudi Ismail, there were four reasons that encouraged the ulama to make some researches on hadith, as (1) hadith as the source of islam teaching, (2) not all hadiths were written in

Prophet Muhammad saw. Period (3) it appeared some hadith adulteration (4) the late booking process of hadiths.<sup>1</sup>

Those factors or reasons proposed by Syuhudi Ismail above were some factual and rational reasons that encouraged research on hadith as the need of collecting and booking in some hadith books. After those hadiths were collected and booked, do they need to hold a research? According to the writer's opinion, they still need to be researched.

There were some reasons why those hadith were needs to be checked and researched, as follow:

- 1). Not all the hadith books were containing the complete parts of the hadith such as the *matan*, *sanad* and their *mukharrij*. Actually there were some hadith with complete components, but there were also some hadith that only contain the *matan*, *sanad* and the *makharij* was not available. Hadith on those books couldn't be researched and stated the quality.
- 2). Most of the hadith contained in hadith books, just only researched in their *sanad*. And the quality of the narrators. They haven't research simultaneously or *multisanad* yet. The qualities of the connection of the *sanad* haven't been research. While the quality of the *matan* wasn't also analyzed.
- 3). All of the hadiths contained in that hadith book, were newly researched partially or only one *sanad*, no one that had been researched simultaneously or *multisanad*, while the result of summary on a hadith with one *sanad*, was different with the conclusion of hadith with the whole *sanads* simultaneously.
- 4). Hadith – after it was researched and got the qualified result (*sahih*) – was necessary to apply in a real life. To apply the hadith, should be conducted *fiqh al hadith* first. The effort to comprehend the hadith - *matan* only from one *matan* was not covered, because most of the hadiths narration were *riwayah bi al makna*. Because of that, the *matan* that would be comprehended should be collaborated with another *matan* from another *sanad* with the same theme to be understood simultaneously.

Based on some elaborated problems above, a simultaneously research on hadith was ann urgent need particularly for the hadith that would be applied as the teaching of pray, fasting and others.

Among some hadiths which needed a simultaneously research were some hadiths about fasting in Rajab month. Rajab month is the seventh month in a Hijriyah month (derived from Islam or Arabic calendar). The event of Isra'Mi'raj conducted by Prophet Muhammad pbuh to receive the five times prayers order, was believed happened on this 27 of Rajab. Rajab month is one of *haram* or *muharram*

known as a loyal month. In Islam tradition, there were four haram months; there of them in a row were Dzulqa'dah, Dzulhijjah, Muharram and Rajab.

They were named as haram months as on the month, the Moslems were prohibited to make war. About these months, Allah said in the holy Quran Surah At Taubah verse 36:

إِنَّ عِدَّةَ الشُّهُورِ عِنْدَ اللَّهِ اثْنَا عَشَرَ شَهْرًا فِي كِتَابِ اللَّهِ يَوْمَ خَلَقَ السَّمَاوَاتِ وَالْأَرْضَ مِنْهَا أَرْبَعَةٌ حُرُمٌ ذَلِكَ الدِّينُ الْقَيِّمُ فَلَا تَظْلِمُوا فِيهِنَّ أَنْفُسَكُمْ وَقَاتِلُوا الْمُشْرِكِينَ كَافَّةً كَمَا يُقَاتِلُونَكُمْ كَافَّةً وَاعْلَمُوا أَنَّ اللَّهَ مَعَ الْمُتَّقِينَ

*“Verily the numbers of month in the side of Allah were twelve months, in the faith of Allah when He created sky and earth, among them, there were four haram months. It was the straight religion faith, attack the Musyrikien as they attacked the whole of you, and you had to know that Allah is always with muttaqien*

There were some people said that hadith about fasting in Rajab month was *da'if* even *mawdu'* (counterfeit) and no hadith about fasting in Rajab month was *sahih*. That argumentation was not fully false and not fully true. Those opinions were quoted from the view of ulama' such as Ibn taymiyah and Ibn Al Qayyim Al jawziyyah who researched the hadith of fasting in Rajab partially (sanad in one by one) from the hadiths that told about the urgency of Rajab month and they were truly correct if the hadiths were research partially. But hadiths of urgency of fasting in Rajab month if they were researched simultaneously or multisnad by keeping attention on the number of the narrators on the friends level, so the result would be different with the findings done partially.

There were some possibilities that some people who argued fasting in Rajab month was *da'if*, they hadn't known yet that there were some hadith that the *matan* redaction were different but substantially had the same meaning. (*riwayah bi al ma'na*). The narrated hadith meant were the hadiths from Ibn Abbas which were released by Imam Muslim as follow:

حَدَّثَنَا أَبُو بَكْرِ بْنُ أَبِي شَيْبَةَ حَدَّثَنَا عَبْدُ اللَّهِ بْنُ نُمَيْرٍ ح وَحَدَّثَنَا ابْنُ نُمَيْرٍ حَدَّثَنَا أَبِي حَدَّثَنَا عُثْمَانُ بْنُ حَكِيمٍ الْأَنْصَارِيُّ قَالَ سَأَلْتُ سَعِيدَ بْنَ جُبَيْرٍ عَنْ صَوْمِ رَجَبٍ - وَنَحْنُ يَوْمَئِذٍ فِي رَجَبٍ - فَقَالَ سَمِعْتُ ابْنَ عَبَّاسٍ - رَضِيَ اللَّهُ عَنْهُمَا - يَقُولُ كَانَ رَسُولُ اللَّهِ - صَلَّى اللَّهُ عَلَيْهِ وَسَلَّمَ - يَصُومُ حَتَّى يَقُولَ لَا يُفْطِرُ. وَيُفْطِرُ حَتَّى يَقُولَ لَا يَصُومُ. (رواه مسلم)<sup>2</sup>

<sup>2</sup> Muslim, *al-Jami' al-Sahih al-Musamma Sahih Muslim*..Juz 6, p.37. <http://www.al-islam.com> CD Shoftware  
Maktabah . Shamilah, Isdar al-Thani.

*“Abu bakr Ibn Shaybah told us, Abd Allah Ibn Numayr told us, and Ibn Numayr told us, My father told me, Uthman Ibn Hakim al Ansari told us, he said: I asked Said Ibn Jubayr about fasting in Rajab month-by the time we were in Rajab month- so he said, : I often heard that Rasul Allah SAW had ever done fasting (rajab) so we said that Rasul Allah didn’t have breakfasting and he ever did breakfasting (in rajab month) so we said that he were not fasting (in Rajab month) (narrated hadith of Muslim)*

Hadith was *zanni al wurud*, but as the hadith narrated by Imam Muslim in his correct book, so the hadith was believed as the qualified and sahih by a lot of people. But the problem was the narrated hadith of Muslim really true or sahih? Because of that, the hadith needed simultaneous approach to ensure that the hadiths about fasting in Rajab month were qualified *da’if and mardud* or qualified *sahih and maqbul*.

For the first time, the researchers of hadith did the research partially, later on did the next research simultaneously. The partial research in hadith was done by studying one hadith from only one *sanad* way. After being done some analyzes on the narrators, the hadith connection, and the *matan* whether were free from *shadh* and *‘illat* unsure, so it could be summarize about the quality, perhaps *da’if*, perhaps *hasan* or even *sahih*.

The result of partial study hasn’t been final yet, and couldn’t be applied as the basic of law policy taking. Because of that, it should be done the next study simultaneously. The simultaneous research on hadith was done by studying all of the *sanad* line from the same *matan*, either the texts or the meaning.

The simultaneous research done to know *tabi’* hadith and *sahid* to improve the quality and the decree of hadith of researched hadith. All of the obtained finding from the partial study were *da’if* and after doing the simultaneous study, it could improve the quality into *hasan ligayrih* . if the findings from partial study were hasan quality, so after conducted the simultaneous research would increase to be *sahih ligayrih*. From the partial study could be obtained the decree of *ahad garib*, after done the simultaneous study would be obtained *ahad aziz* or *ahad mashur* or *mutawatir*.

Here are some steps of simultaneous research as follow <sup>3</sup>:

- 1). Do *takhrij al-hadith* to obtain the hadith that will be studied, completed by the *sanad* and *matan*.
- 2). Do the research partially, by conducting study on one *sanad* of main hadith. And the steps included:
  - a. Do testing on *thiqahan* (*‘adil* and *dabitan*) of the narrators who were in the sanad of studied hadith.

- b. Do testing on *sanad* connectivity
- c. Conclude the testing result of *sanad* study
- d. Do testing on *matan*, do the *matan* whether the hadith *matan* was free from *shadh* or not
- e. Do testing on *matan*, do the *matan* whether the hadith *matan* was free from *illat* or not
- f. Make conclusion from those testing and *matan* research
- g. Make conclusion from partial study

3). Do simultaneous research/ hadith multis*sanad*.

Here are the steps:

- a. Expanding, analyzing and making conclusion the role of *tawabi'* hadith
- b. Expanding, analyzing and making conclusion the role of *shawahid'* hadith
- c. Making conclusion from simultaneous research

## 2. *Takhrij Al-Hadith:*

Etymology, the word of *takhrij* means: visible, to show<sup>4</sup>. Based on terminology, *takhrij* is defined as the investigation of hadith into the original sources that have complete *sanad*. If they are hindered, the investigation is done into the branch of the book, and if they are still hindered, the investigation is done into the book that has complete *sanad* by inserting some explanation of the hadith quality.<sup>5</sup>

From that explanation above, we can conclude that, *takhrij al-hadis* was the hadith investigation into the original book – the book hadiths which were collected by effort of seeking the memorizer by themselves – which had complete *sanad*, and usually inserted some explanation about the hadith qualities. But, if it wasn't available, so the investigation was only the effort of getting the hadith with complete *sanad* and *matan*.

This investigation was done to get the main hadith, in this case were *tawabi'* and *shawahid* hadiths.

2.2.5. Hadith narrated by 'Abd Allah Ibn 'Abbas which was *takhrij* by Al Tabrani:

حدثنا مسعدة بن سعد العطار ثنا إبراهيم بن المنذر الحزامي ثنا داود بن عطاء حدثني زيد بن عبد الحميد بن زيد بن الخطاب عن سليمان بن علي بن عبد الله بن عباس عن أبيه عن جده : ان رسول الله صلى الله عليه و سلم نهى عن صيام رجب كله (رواه الطبراني)<sup>11</sup>

### 2.3. Shawahid Hadiths

2.3.1. Hadith narrated by Sa'id Ibn Sa'id which was *takhrij* by Al Tabrani:

حدثنا علي بن عبدالعزيز ثنا معلى بن مهدي الموصلي ثنا عثمان بن مطر الشيباني عن عبد الغفور - يعني ابن سعيد - عن عبدالعزيز عن أبيه : قال عثمان وكانت لأبيه صحبة - قال قال رسول الله صلى الله عليه و سلم ( رجب شهر عظيم يضاعف الله فيه الحسنات فمن صام يوما من رجب فكانما صام سنة ومن صام منه سبعة أيام غلقت عنه سبعة أبواب جهنم ومن صام منه ثمانية أيام فتحت له ثمانية أبواب الجنة ومن صام منه عشرة أيام لم يسأل الله شيئا إلا أعطاه إياه ومن صام منه خمسة عشر يوما نادى مناد في السماء قد غفر لك ما مضى فاستأنف العمل ومن زاد زاده الله عزوجل وفي رجب حمل الله نوحا في السفينة فصام رجب وأمر من معه أن يصوموا فجرت بهم السفينة ستة أشهر آخر ذلك يوم عاشوراء أهبط على الجودي فصام نوح ومن معه والوحش شكرا لله عزوجل وفي يوم عاشوراء أفلق الله البحر لبني إسرائيل وفي يوم عاشوراء تاب الله عزوجل على آدم صلى الله عليه و سلم وعلى مدينة يونس وفيه ولد إبراهيم صلى الله عليه و سلم ) ( (رواه الطبراني)<sup>12</sup>

Ali Ibn Abd al-Aziz told us, Ma'la Ibn Mahdi Musli told us, Uthman Ibn Matar al-Shaybani told us, from Abd al-Ghafur – I mean, Ibn Sa'ad dari Abd al-lAziz from his father, Usman said that he was his father's friend – he said that Rasul Allah saw. said: Rajab was really a great month and in that month, Allah would duplicate the goodness. Whomever was doing fasting for a day. He was like doing fasting in a year. Whomever was doing fasting in seven days, so, the seven hell gates were closed, whomever was doing fasting in eighth days, so eight paradise gates were opened. Whoever was doing fasting in ten days,

Abu a l-Qasim Ishaq Ibn Ibrahim al-Khatali told us, al-Husayn Ibn 'Ali , Ibn Yazid al-Akfani from his father, from Ali, from his father, from Harun Ibn 'Antarah from his father, from Ali Ibn Abi Talib as. RasulAllah saw said whomever was doing a day fasting in Rajab month was similar with doing fasting in a full month, whomever was doing fasting for six days, so seven hell gates would be closed. Whomever was doing fasting in eight days, so eight paradise gates would be opened. Whomever doing fasting in ten days, Allah would replace his badness in to goodness. Whomever was doing fasting in twenty days, so the callers from the sky said that the sins were forgiven, and the works were continued.

### 3. Partial Analyzes

#### 3.1. Study of *Sanad*

##### 3.1.1. Complete hadith redaction with its *sanad*

Hadith narrated by Anas Ibn Malik which was *takhrij* by Muslim:

حَدَّثَنَا أَبُو بَكْرِ بْنُ أَبِي شَيْبَةَ حَدَّثَنَا عَبْدُ اللَّهِ بْنُ نُمَيْرٍ ح وَحَدَّثَنَا ابْنُ نُمَيْرٍ حَدَّثَنَا أَبِي حَدَّثَنَا عُثْمَانُ بْنُ حَكِيمٍ الْأَنْصَارِيُّ قَالَ سَأَلْتُ سَعِيدَ بْنَ جُبَيْرٍ عَنْ صَوْمِ رَجَبٍ - وَنَحْنُ يَوْمَئِذٍ فِي رَجَبٍ - فَقَالَ سَمِعْتُ ابْنَ عَبَّاسٍ - رَضِيَ اللَّهُ عَنْهُمَا - يَقُولُ كَانَ رَسُولُ اللَّهِ - صَلَّى اللَّهُ عَلَيْهِ وَسَلَّمَ - يَصُومُ حَتَّى نَقُولَ لَا يُفْطِرُ. وَيُفْطِرُ حَتَّى نَقُولَ لَا يَصُومُ. (رواه مسلم)

In hadith sanad above, there were 5 (five) narrators, as follow:

1. Abu Bakr ibn Abi Shaybah
2. Abd Allah Ibn Numayr
3. 'Uthman Ibn Hakim Al Ansari
4. Sa'id ibn Jubayr
5. Abd Allah Ibn 'Abbas

#### 3.1.4. Examining the *thiqah* on the narrators

The first step on sanad study was examining the fairness and the *dabit* on the narrators (the *thiqah* of narrators). This step was done to fulfill the completeness or not of the requirement of *'adl* and *dabit* on the narrators. For those needs, they needed some datas about *al-jarh wa al-ta'dil* of the narrators in the sanad hadith that were studied.

On the empiric clarification, the test of narrators *thiqah* was done by expanding the biography of the narrators in sanad in to some biography books of the narrators, to know how the comments of ulama *al-jarhwa al ta'dil* about their *'adl* and *dabit*.<sup>22</sup>

In the biography book of the narrators, usually mentioned the name of the narrators completely, name of the teachers, name of the students, and the ulama point of view about the narrators quality even also mention the date of their death.

The data finding data about *al-jarh wa al-ta'dil* of the narrators in research hadith sanad and the analyzes could be mentioned as follow:

1). Abu Bakr ibn Abi Shaybah

a). In the book of *al-Kashif fi Ma'rifati Man Lahu Riwayatun fi al-Kutub al-Sittah*, chapter 1 page 212 authored by al-Dhahabi, Abu Hatim<sup>23</sup> said : صدوق (Veracious).

b). In the book of *Maghani al-Akhyar fi Sharh Asami Rijali Ma'ani al 'Athar* authored by Badr al-din al – 'Ayni <sup>24</sup> , ahmad Ibn Salih said : ثقة (confidence)

c). In the book of *Tahdhib al-Kamal* chapter 16 page 35 authored by al-Mizzi<sup>25</sup>, Abd'Allah Ibn Ahmad Ibn Hanbal said : صدوق, al-'Ajali, Abu Hatim and Ibn Khiras said: ثقة, Al'Ajali added : ثقة حافظ للحديث (confidence and memorized the hadith).

From the explanation above, can be concluded that Abu Bakr ibn Aby Shaybah was a *thiqa* or confidence narrator.

## 2). Abd Allah Ibn Numayr

a). In the book of *Khulasah Tadhhib al-Kamal* authored by al- Khazraji<sup>26</sup> , chapter 1 page 217, Ibn Ma'in said that Abd Allah Ibn Numayr was *thiqa*.

b). In the book of *Tadhhib al-Kamal* chapter 16 page 225 authored by al-Mizzi <sup>27</sup>, had been said that ahmad Uthman Ibn al-Darimi asked to Yahya Ibn Ma'in, "Which do you like prefer, al-A'mash or ibn Numayr? Ibn Ma'in said that both of them were *thiqa*..

c). In the book of *Maghani al-Akhyar fi Sharh Asami Rijali Ma'ani al 'Athar* authored by Badr al-Din al- 'Ayni <sup>28</sup>, Ibn Ma'in said: *thiqa*.

From the explanation above, it can be concluded that Abd Allah Ibn Numayr are narrators who *thiqa*.

## 3). 'Uthman Ibn Hakim Al Ansari

a). In the book of *Tahdhib al-Kamal*, chapter 19 page 355 authored by al-Mizzi<sup>29</sup>, said that Yahya Ibn Ma'in, Abu Dawud, al Nasai and Abu Hatim said *thiqa*.

b). In the book of *Khulasah Tadhib Tadhib al-Kamal* chapter 1 page 259 authored by al- Khazraji<sup>30</sup> had been said that Ahmad and Ibn Ma'in said 'Uthman Ibn Hakim Al Ansari was *thiqa*.

c). In the book of *Maghani al-Akhyar fi Sharh Asami Rijali Ma'ani al 'Athar* authored by badr al-Din al Ayni<sup>31</sup>, had been said that Ahmad said : ثقة ثبت (trusted and strong)

From the explanation above, could be concluded that 'Uthman Ibn Hakim Al Ansari was a *thiqa* narrator.

4). Sa'id ibn Jubayr

a). In the book of *Tahdib al-Kamal*, chapter 10 page 358.<sup>32</sup> Abu al-Qasim Hibbah Allah Ibn al-Hasan said : هو ثقة إمام حجة على المسلمين (Is confident, Imam and argument on Muslims)

b). In the book of *Khulasah Tadhib Tadhib al-Kamal* chapter 1 page 136 authored by al- Khazraji<sup>33</sup> had been said that Al-Kallai said Sa'id Ibn Jubayr was ثقة إمام حجة

c). In the book of *Maghani al-Akhyar fi Sharh Asami Rijali Ma'ani al 'Athar* chapter 1 page 398 authored by Badr al-Din al-'Ayni<sup>34</sup>, had been said that Abu al Qasim Hibbah Allah Ibn al-Hasan al-Basri said Sa'id Ibn Jubayr was: هو ثقة، إمام، حجة على المسلمين

From the explanation above, could be concluded that Sa'id Ibn Jubayr was a very *thiqa* narrator.

5). Abdullah Ibn Abbas

Abd Allah Ibn 'Abbas was one of Prophet Muhammad pbuh.'s companion and no doubt with his *thiqa*.

### 3.1.5. Examining the *sanad* connection

The second step of the hadith study was examining the *sanad* connection. This step was taken to assess the successfulness or the unsuccessfulness of the requirement of *sanad* connection of the

narrators. On the empiric step, sanad connection test was done by analyzing the redaction of narration which used by the narrators in narrating their hadiths.

The sanad connection data serving and analyzing could be mentioned as follows:

- 1). Muslim said: حَدَّثَنَا أَبُو بَكْرِ بْنُ أَبِي شَيْبَةَ This redaction was used by *Muhadditsin* in hadith narration in the form of *sima'*, namely the hadith reading by teacher to the students. Thus, there were meetings between Muslim and his teacher: Abu Bakr Ibn Abi Shaybah, and the sanad was *muttasil*
- 2). Abu Bakr Ibn Abi Shaybah said: حَدَّثَنَا عَبْدُ اللَّهِ بْنُ نُمَيْرٍ This redaction was used by *muhadditsin* in hadith narration in the form of *sima'*, namely the hadith reading by teacher to the students. Thus, there were meetings between Abu Bakr Ibn Abi Shaybah and his teacher: 'Abd Allah Ibn Numayr, and the sanad was *muttasil*
- 3). 'Abd Allah Ibn Numayr said: حَدَّثَنَا عُثْمَانُ بْنُ حَكِيمٍ الْأَنْصَارِيُّ This redaction was used by *muhadditsin* in hadith narration in the form of *sima'*, namely the hadith reading by teacher to the students. Thus, there were meetings between 'Abd Allah Ibn Numayr and his teacher: 'uthman Ibn Hakim al-ansari, and the sanad was *muttasil*
- 4). 'Uthman Ibn Hakim al-Ansari said: سَأَلْتُ سَعِيدَ بْنَ جُبَيْرٍ عَنْ صَوْمِ رَجَبٍ This redaction showed that there were meetings between 'Uthman Ibn Hakim al-ansari and his teacher: Said Ibn Jubayr, and the sanad was *muttasil*
- 5). Said Ibn Jubayr said: سَمِعْتُ ابْنَ عَبَّاسٍ This redaction was used by *muhadditsin* in hadith narration in the form of *sima'*, namely the hadith reading by teacher to the students. Thus, there were meetings between Said Ibn Jubayr and his teacher: 'Abd Allah Ibn 'Abbas, and the sanad was *muttasil*

### 3.1.6. The Conclusion of sanad examination

After serving the analyzed data which related to the *thiqa* of the narrators that were in the studied hadith *sanad* and some data of *sanad* connectivity, so it could be concluded as follows:

- 1). All of the narrators in the hadith *sanad* there were 5 (five) narrators and all of them were *thiqa* qualified
- 2). All of the narrators who each of them met with another narrators as their teachers, thus, the *sanad* was *muttasil*

So, it could be concluded that the studied hadith was *sahih al-isnad* qualified.

### 3.2. Study of *matan*

#### 3.2.1. Examining the *shadh* or not hadith *matan*.

At the empirical level, the test of *shadh* performed by confirming the text and the meaning of hadith examined by the *Naqli* arguments either in the form of passages of the holy Koran or the hadiths of the themes with the higher quality of sanad or chain of transmission.<sup>35</sup>

When comparing the hadith with the verses of al-Qur'an or the higher hadith with the quality of the chain, it must be ensured that both or one of them should not be able to be compromised or *ta'wil*.<sup>36</sup> If it is possible to be compromised or *ta'wil*, then it means that there is no contradiction between the two. Both can be practiced, because the matan of hadith must be freed from the elements of *shudhudh*.

The hadith rajab fasting which were *takhrij* by Muslim if it was confirmed by al-Qur'an, so it could be stated as follows:

As long as the researchers had known, the meaning of the hadith wasn't contradictory with the verses of al-Qur'an, even that hadith was in the same way with the verses of al-Qur'an, Qur'an Surah al-Baqarah verse 183 as follow :

يَا أَيُّهَا الَّذِينَ آمَنُوا كُتِبَ عَلَيْكُمُ الصِّيَامُ كَمَا كُتِبَ عَلَى الَّذِينَ مِن قَبْلِكُمْ لَعَلَّكُمْ تَتَّقُونَ

"Hi the amu'min people, you are obligated to do fasting as well as had been obligated to the previous people so that you were in taqwa".

In that verse, Allah stated that He had determined that fasting was the human's need both ruhaniyah and jasmaniyah in one side, fasting was a media to approach ourselves to the Creator. On the other hand, it was a need for the body health, to support the blood circulation in the human body. Fasting in the other hand was also could give some rewards on ukhrowi happiness and also give health or jasmani happiness.

If the fasting hadith of Ibn 'Abbas which were *takhrij* by Muslim was faced on to some fasting hadiths in the lines of Sa'id Ibn Sa'id, Anas, Ibn Umar and Abu Dharr as well as mentioned before, according to the researchers weren't contradictory, even those hadiths supported, strengthened, completed and make the meaning to be perfect

From the data analyzes above, could be concluded that the matan hadith of rajab fasting narrated by Abd Allah Ibn Abbas which was *takhrij* by Muslim was free from *shudhudh*.

### 3.2.2. Examining *mu'allal* (broken or not) of the hadith *matan*

---

<sup>35</sup> Salah al-Din al-Adlabi, *Manhaj Naqd al-Matan 'Inda Ulama'al-Hadith al-Nabawi*, (Beirut: Dar al-Afaq al-Jadidah, 1983),p .239.

<sup>36</sup> Ibid.

On the empiric level ,the *mu'allal* (broken ) or not of the hadith *matan* was done by confirming the studied hadith by *Aqli* argument wether on the contrary or not?

If it was on the contrary with *aqli* so the hadith *matan* was not *sahih*. On the other hand. Al-Adlabi explained that the coveragges included the *aqli* contradictions with senses, history and didn't look like the prophethess talk.<sup>37</sup>

As long as the reaserchers had known the hadith *matan* of rajab fasting wasn't on the contrary with *aqli* argument, either healthy mind or senses, history or sciences. Even adding some information and knowledge which had a relationship with sum of the days we wanted to fast in rajab month : one day, or six days, or seven days, or eight days, or ten days, or fifteen days, or twenty days. But we had to know that we were not allowed to get fasting in full mounth, because it was forbidden by the prophet Muhammad SAW. Thus, the narrated hadith of Ibn 'Abbas which was *takhrij* by Muslim was free from *illat* unsure.

### 3.2.3. The Conclusion of *matan* examination

After doing some analyses on the *matan* hadith of rajab fasting narrated by Ibn 'Abbas which was *takhrij* by Muslim could be concluded as follows :

- 1). In fact, the hadith *matan* was not shadh because it wasn't on contrary with *naqli* argument, either from al-Qur'an or the hadith with the higher quality of *sanad*.
- 2). The hadith *matan* wasn't also illat, because it wasn't on the contrary with *aqli* argument either healthy mind or senses, history or sciences.

From the explanation above, it could be congcluded that the *matan* hadith was *sahih al-matni* quality.

### 3.3. The conclusion of partial study of the hadith

After the data that related to *thiqah* of the narrators in the studied hadith *sanad* had been served and analyzed, also the data of *sanad* connection even the *matan* of narrated hadith of Ibn 'Abbas that was *takhrij* by muslim, so it could be concluded as follow:

- 1). All of the narrators in the hadith *sanad* were five person, all quality: *thiqa* or trusty.
- 2). All of the narrators, each of them met with their teachers, so the *sanad* was muttasil

---

<sup>37</sup> Sala<h al-Din al-Adlabi, *op.cit.* p.242..

3). The hadith *matan* were not *shadh* because they were not on the contrary with *dalil naqli* both from Al-Qur'an and hadith with higher quality of *sanad*.

4). The hadith *matan* were not *illat* because they were not on the contrary with *aqli argument* both with a good mind, senses, history or science.

So it could be concluded that the narrated hadith of Abi Hurayrah that was *takhrij* by Al Bukhari was in *sahih lidhatih* quality.

#### 4. Simultaneous Analyzes :

Simultaneous analyzes was an analyzing process of hadith by expanding and seeking the hadiths that supported both the *tabi'/mutabi'* hadith or the *shahid* hadith. Because of that, simultaneous analyses needed some analyses about: *tabi' hadith* and *sahid hadith*.

Tahhan defined the defined the *al-tabi'* hadith as follow:

*"Hadith which the narrator is same with the single hadith, same in the text and the meaning or has only the same meaning or same in the friends' narrator"*.<sup>38</sup>

Hadith which was same with another hadith same in the text and the meaning or has only the same meaning or same in the friends' narrator. If the similarity was from the beginning of *sanad*, so it named as *mutba'ah tammah*. But if the similarity was not from the beginning of *sanad*, so it named as *mutaba'ah qosirah*.

Tahhan and his friends defined the *al-shahid* hadith as follow:

Hadith which was narrated by other narrators that was same with the single narrator, whereby it was same in the text and the meaning, or only same in the meaning, and there were some differences on the narrators on the friend's level.<sup>39</sup>

This *shahid* is divided into two parts, as *shahid lafzi* and *shahid ma'nawi*. If the text of the *matan* was same, so it was named *shahid lafzi* but if the *matan* text was different and the meaning was same named as *shahid ma'nawi*.

The function of *al tabi'* and *al sahid* hadith were to strengthen the studied hadith, but both of them were different. *al Tabi'* was special in narration of one sanad in one friend, but *al Shahid* was special in the narration that more than one sanad in one friend.

---

<sup>38</sup> Mahmud Ahmad Tahhan, et. al., *Mu'jam al-Mustalahat al-Hadithiyyah*. Juz 1, p.11. CD Shoftware Maktabah Shamilah, Ishdar al-Thani.

<sup>39</sup> Ibid. Juz 1,p.26.

Hadith of *al tabi'* had a function to cover the weaknesses of hadith quality from the sanad aspect. For example, the *thubut al-sima'* from *al tabi'* hadith and able to cover the *'an anah* of the narrator which was *mudallis* to the hadith *mutaba'*. The narration of *thiqa* narrators could cover the the *mukhtalit* narrators (*kathir al-sahwi wa al khata' a'wal nisyan*). The connected narration could cover or fixed the broken narration. The narration of the wellknown narrators on their *tabi'* hadith could fix the *mubham* narrators in the hadith of *mutaba'*. With this condition, hadith with *daif quality* could progress to be *sahih lighairihi* or *hasan lighaiyrihi* depended on the strength and the quality of the *tabi'* hadith in one friend..<sup>40</sup>

Here is the more detail explanation:

- 1). If the *mutaba'* hadith was *da'if quality*, while the *mutabi hadith* or *tabi'* from the same friends were qualified *sahih lidhatih*, so the *mutaba'* hadith could be improved into *sahih lighayrih*
- 2). If the *mutaba'* hadith was *da'if quality* and the *mutabi hadith* or *tabi'* from the same friends were qualified *sahih lidhatih*, so the *mutaba'* hadith could be improved into *hasan lighayrih*
- 3). If the *mutaba'* hadith was *hasan lidhatih* quality and the *tabi'* hadith from the same friends were qualified *sahih lidhatih*, so the *mutaba'* hadith could be improved into *sahih lighayrih*
- 4). If the *mutaba'* hadith was *hasan lidhatih quality* and the *mutabi'* hadith from the same friends were qualified *hasan lidhatih*, so the *mutaba'* hadith could be improved into *sahih lighayrih*
- 5). If the *mutaba'* hadith was *hasan lidhatih* quality and the *tabi'* hadith from the same friends were qualified *hasan lighayrih*, so the *mutaba'* hadith could be improved into *sahih lighayrih*
- 6). If the *mutaba'* hadith was *sahih lidhatih* quality and the *mutabi'* hadith from the same friends were qualified *sahih lidhatih* or *sahih lighayrih* or *hasan lidhatih* or *hasan lighayrih* or *da'if* so the *mutaba'* hadith was *sahih quality*.
- 7). If the *mutaba'* hadith was *dhoif quality*, while the *mutabi hadith* or *tabi'* from the same friends were qualified *da'if*, so the *mutaba'* hadith quality was *da'if* and couldn't be improved into *hasan lighayrih*.

Perhaps, it was meant by Ibn Hazm in his said as follow:

<sup>41</sup>فقال: ولو بلغت طرق الضعيف ألفاً لا يقوى .

*Ibn Hazm said: although the da'if hadith line reached a thousand, so they couldn't be improved.*

<sup>40</sup> Hatim Ibn 'Azif Ibn Nasir al-Awni , *Nadwah 'Ulum al-Hadith 'Ulum Wa Afaq*. Juz.11, p.15. CD Shoftware Maktabah Samilah, Ishdar al-Thani.

<sup>41</sup> Jamal al-Din Ibn Muhammad al-Sayyid, *op.cit.*,Juz 1,p. 446.

From the explanation above, could be concluded that *tabi'* hadith or *mutabi'* could be improved the quality of the *mutaba'* hadith from the same friends, according to the *sanad* quality from the *tabi'* or the *mutabi'*.

The function of *shahid* hadith was to support or to improve the *mutaba'* hadith *matan*, both from the quality or the quantity, namely from *gharib* to be *mashhur*, and from *da'if* to be *sahih* or *hasan* according to the *sanad*. The jumhur ulama said : the *da'if* hadith could be improved the quality if it had many supports from other hadith from other friends' lin.<sup>42</sup>

Here is the more detail explanation:

- 1). If the *mutaba'* hadith was in *ahad gharib* decree and had *da'if* quality, while the *shahid* from different friends in one hadith, so the *mutaba'* hadith decree could improve into *ahad 'aziz* and the quality improved into *hasan*.
- 2). If the *mutaba'* hadith was in *ahad gharib* decree and had *da'if* quality, while the *shahid* from different friends in two until eight hadiths, so the *mutaba'* hadith decree could improve into *ahad mashhur* and the quality improved into *sahih*.
- 3). If the *mutaba'* hadith was in *ahad gharib* decree and had *da'if* quality, while the *shahid* from different friends in nine and more hadiths, so the *mutaba'* hadith decree could improve into *mutawatir* and the quality improved into *sahih*.
- 4). If the *mutaba'* hadith was in *ahad gharib* decree and had *hasan* quality, while the *shahid* from different friends in one hadith, so the *mutaba'* hadith decree could improve into *ahad 'aziz* and the quality improved into *sahih*.
- 5). If the *mutaba'* hadith was in *ahad gharib* decree and had *hasan* quality, while the *shahid* from different friends in two until eight hadiths, so the *mutaba'* hadith decree could improve into *ahad mashhur* and the quality improved into *sahih*.
- 6). If the *mutaba'* hadith was in *ahad gharib* decree and had *hasan* quality, while the *shahid* from different friends in nine and more hadiths, so the *mutaba'* hadith decree could improve into *mutawatir* and the quality improved into *sahih*.
- 7). If the *mutaba'* hadith was in *ahad gharib* decree and had *sahih* quality, while the *shahid* from different friends in one hadith, so the *mutaba'* hadith decree could improve into *ahad 'aziz* and the quality improved into *sahih*.

---

<sup>42</sup> Ibid.

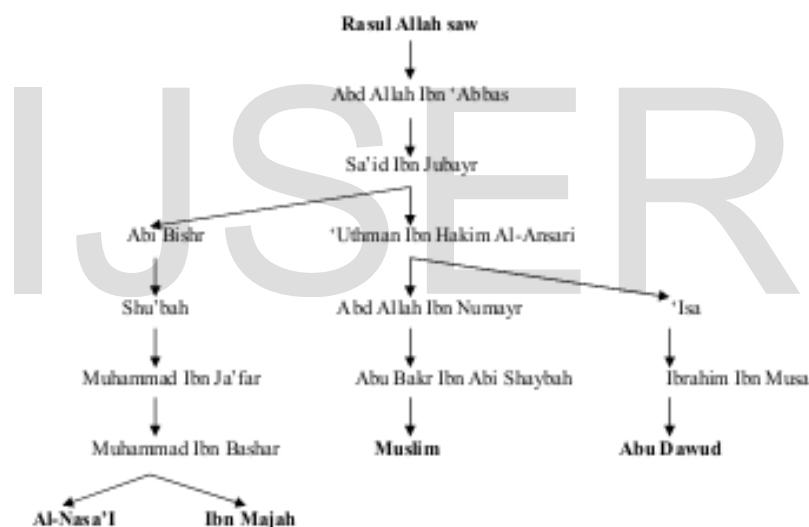

8). If the *mutaba'* hadith was in *ahad gharib* decree and had *sahih* quality, while the *shahid* from different friends in two until eight hadiths, so the *mutaba'* hadith decree could improve into *ahad mashhur* and the quality improved into *sahih*.

9). If the *mutaba'* hadith was in *ahad gharib* decree and had *sahih* quality, while the *shahid* from different friends in nine and more hadiths, so the *mutaba'* hadith decree could improve into *mutawatir* and the quality improved into *sahih*.

From the explanation above can be concluded that *shahid hadith* could improve the studied hadiths either from the quantity or the quality.

#### 4.1. The *Tawabi'* analyzes

##### 4.1.1. The scheme of the whole other sanad lines in one friend.

##### 4.1.2. Analyses

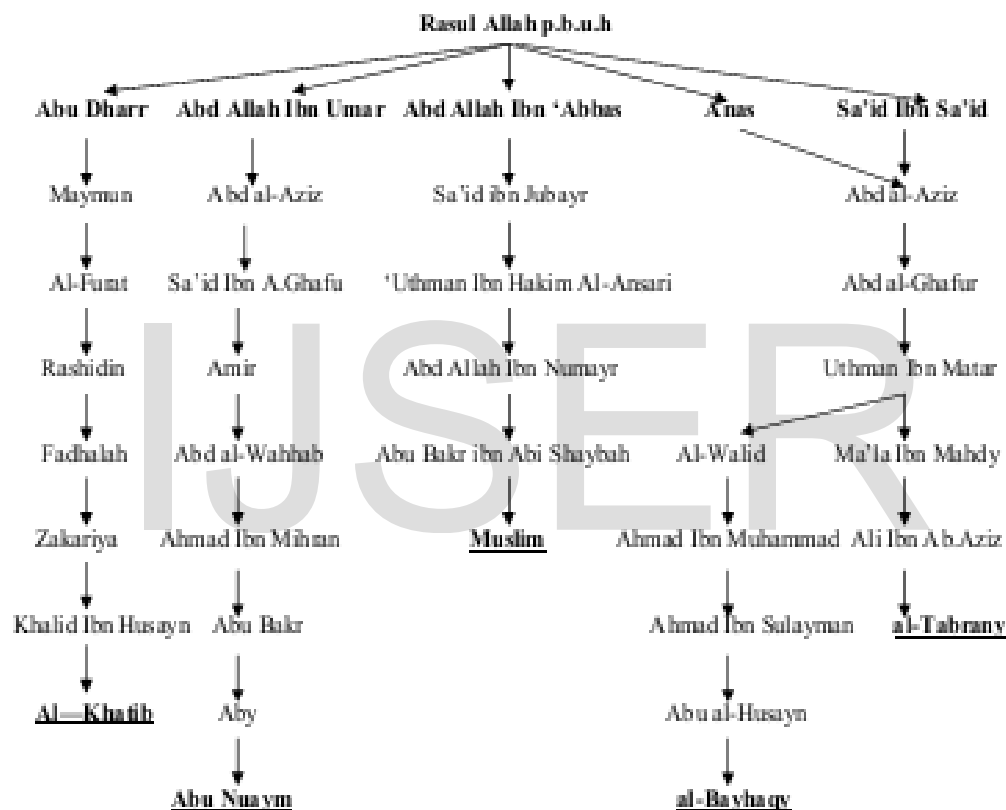

Based on the sanad aspect, the narrated hadith of 'Abd Allah Ibn 'Abbas that was *takhrij* by Muslim had four *tabi' qasir*.

Because all of the hadith narrators who were narrated by Muslim were *thiqa* and the sanad connectivity was muttasil, to the existence of the four *tabi'* hadiths above couldn't improve the quality of the main sanad hadith or *mutaba'* that were in *sahih al-isnad* quality.

So the existence of the *tabi'qasir* couldn't improve the *mataba'* hadith quality, namely: the hadith of rajab fasting which were narrated by 'Abd Allah Ibn 'Abbas which were *takhrij* by Muslim. So, it meant that the *tabi'* hadith didn't influence into the improvement of hadith quality of the *mutaba'*, namely *sahih lidzathih*.

## 4.2. Shawahid analyzes

### 4.2.1. The scheme of the whole other sanad lines in one friend

### 4.2.2. Analyses

Hadith of Rajab fasting which was narrated by 'Abd Allah Ibn 'Abbas which was *takhrij* by Muslim, after it was studied partially (in one sanad line) could be obtained that the hadith was *sahih lidzathih* quality.

Then the hadith was studied simultaneously, in fact, the hadith had four *sahid ma'nawi* hadiths (the hadiths were narrated by four different friends, namely: Sa'id Ibn Sa'id, Anas Ibn Malik, 'Abd Allah Ibn

'Umar, and abi Dharr. So the Rajab fasting hadith was narrated by 5 (five) friends. So based on the quantity, the hadith of Rajab fasting had increased into *mashhur* (*ahad-mashhur*) in quality because it had been narrated by five friends.

The hadith of Rajab fasting based on the quantity was *sahih*. Because it had 4 (four) *sahid ma'nawi* hadiths and it should increase more. But because its hadith was *sahih*, so it couldn't increase more, because no more level that higher than *sahih* quality.

#### 4.3. The conclusion of simultaneous hadith research

The result of partial study showed that the narrated by Abd Allah Ibn 'Abbas which was *takhrij* by Muslim was in *sahih lidhatih*.

The study on the *tawabi'* found that that hadith had 1 (one) *tabi'* hadith. But because the quality of the hadith was *sahih*, so the existence of *tawabi'* hadith couldn't improve the quality

The study on *shawahid* hadith, found that that hadith had 4 (four) *sahid ma'nawi*. So the hadith quality had improved into *ahad mashhur* (some *muhaddithin* called them only *mashhur*) but the quality didn't improve into *sahih*

So, the conclusion that hadith of Rajab fasting that was *takhrij* by Muslim was *sahih-mashhur* (qualitatively *sahih* and quantitatively *mashhur*)

Wallahu a'lam bi al sawab.
